## VILLA MAKES OFFER---U. S. ACCEPTS

Says Mrs. Benton, 2 American and 2 English Surgeons May See Benton's Body

### BRYAN BELIEVES BENTON AFFAIR NEAR SOLUTION

Carranza's Cabinet at Nogales—Huerta Impresses Farm Boys for War Service

WASHINGTON, Feb. 27.—The government believes an adjustment of the Benton case is near. This is on the authority of Secretary of State Bryan. The Secretary today confirmed the reports from Chihuahua that Gen. Villa has agreed to permit Mrs. Benton, with two American and two British representatives and a surgeon, to visit Chihuahua to see Benton's body. Bryan said that Villa's offer came through Consul Fletcher at Chihuahua. It seems to be a frank offer. The party will be taken directly to the national cemetery, where Benton's body will be exhumed. Secretary Bryan directed Consul Fletcher to notify Villa that the United States accepts the proposition. The details of the prospective visit are being worked out.

### URGENT DEMAND ON WILSON FOR MEXICAN INFORMATION

WASHINGTON, Feb. 27.—Before the house foreign relations committee Congressman Abner of Pennsylvania made a strong plea for a favorable report on his resolution calling on President Wilson for details of the Mexican situation and an account of all outrages committed on foreigners in Mexico.

### DENIES COMPROMISE PLAN IS OFFERED BY HUERTA

WASHINGTON, Feb. 27.—Secretary Bryan today denied that the administration had communicated with Huerta relative to a plan to end the Mexican rebellion. He specifically denied the report that Huerta had told Charge d'Affaires O'Shaughnessy that he wishes to co-operate with America in re-establishing peace if President Wilson withdraws the order lifting the embargo of arms. Asked if he would entertain a proposal from Huerta, he replied that the government adheres to its original view that Huerta's elimination is necessary.

### SPECIAL JUSTICE AGENT OFF TO PROBE THE BENTON CASE

EL PASO, Feb. 27.—George C. Carothers, a special agent of the Department of Justice, started for Chihuahua City today in an automobile with wheels flanged to fit railroad tracks. He is commissioned to investigate the Benton case. British Consul Percival of Galveston remained here.

### 200 FARMER BOYS IMPRESSED INTO WAVING FEDERAL ARMY

MEXICO CITY, Feb. 27.—A federal military detachment today impressed 200 farmer boys, many of them only about twelve years of age, in the market place today. The children had come from the country with provisions to sell, and the soldiers surrounded the market before their intentions were realized. The children were dragged from their mothers, the boys and women wildly shrieking. The juvenile conscripts were locked in barracks under guard until they could be loaded in box cars and shipped to the front. Provisional President Huerta is making every effort to fill his ranks on account of increased rebel activity.

### CARRANZA CABINET AT NOGALES, ARIZONA—BENTON COURT MARTIAL ALSO THERE

NOGALES, Ariz., Feb. 27.—Several members of General Carranza's cabinet arrived here today. They refuse to state whether Carranza was aboard the special train that brought them from Hermosillo. They said General Carranza had not formed any opinion in the matter of Benton's death, and would not do so until he had the entire details of the case.

Members of the court martial that tried Benton are waiting at Nogales, Sonora, for a conference with General Carranza. They refused to state whether they came at his order or not.

### RIVERSIDE Y. M. C. A. BUDGET FUND IS NOW OVER-SUBSCRIBED

RIVERSIDE, Feb. 27.—A three days' financial campaign to raise \$5000 for the budget of the Y. M. C. A. ended at luncheon yesterday, when the fifteen captains of as many teams reported sums aggregating \$5159. Many of the most prominent church and business people of the city, also county officials, bankers, professional men and ranchers, joined in boosting for the amount needed for the live association.

### Banker Raine, the Million Dollar Defaulter

C. H. Raine, president of the Mercantile Bank of Memphis, Tenn., admits the loss of a million dollars of its depositors' money by speculation. Frank Raine blames Wall Street for his troubles, and says the game was "rigged" against him.

### Bulletins of News

Hot from the wire up to 3:30 p. m.

### THE WEATHER

Fair tonight and Saturday; northerly winds.

### Foreign Officers Studying in France

PARIS, Feb. 27.—According to an announcement today the French Military Academy has enrolled more foreign officers who have come to France to study than at any previous time. They hail from all parts of the world.

## NAVAL ARMADA TO VISIT PACIFIC IN 1915

150 of World's Greatest Vessels to Traverse Canal to Los Angeles and Frisco

WASHINGTON, Feb. 27.—One hundred and fifty of the world's greatest warships will assemble at Hampton Roads next year for the great naval pageant through the Panama Canal to the San Francisco Exposition. The ships will visit Los Angeles and San Diego en route to the exposition city.

In discussing the plans for the naval display with Congressman Stephens of California yesterday, Secretary Daniels said eighty foreign battleships were already pledged to join the American ships at Hampton Roads. These, with the American fleet and the additional ships which will be in line, will bring the gathering to a total of about 150.

Forming the greatest armada of all times, the ships will proceed together to the canal. On the Pacific side the ships will proceed up the west coast in squadrons of eight or ten, each squadron putting in at San Diego and Los Angeles before dropping anchor in San Francisco Bay.

The squadron plan for the west coast has been agreed upon, so the officers and men of each ship will have an opportunity to visit the ports of call under better auspices than would be possible if the entire fleet arrived together.

LOS ANGELES, Feb. 27.—The city council yesterday sold to the bond house of E. H. Rollins & Sons \$2,240,000 of harbor-improvement bonds, for which it is to get par, accrued interest and a premium of \$8736.

This disposes of all the remaining portion of the \$2,500,000 harbor-improvement bond issue authorized by a vote of the people on April 13, 1913. It opens the way for a continuation of harbor development as rapidly as is necessary to meet the demands of the growing commerce of this port.

### SACRAMENTO REGISTRATIONS

SACRAMENTO, Feb. 27.—The Progressives led all registrations to date here, the totals being: Progressives, 5500; Republicans, 4621; Democrats, 3162.

## JUAREZ CONSUL SEARCHES FOR COMPTON

Instructions Have Been Sent Him by Secretary of State Bryan

### PERRY GETS WIRE FROM W. J. BRYAN

Family of Missing Man Deny Report that He Has Returned Home

With instructions from Secretary of State Bryan, the American consul at Juarez is believed to be making another search today for Harry Compton of Oakland, son of Mrs. G. W. Rolfe of Garden Grove.

When a copy of Compton's letter, written while shackled in a Mexican prison, was received at Garden Grove it was seen at once that Compton did not say that he was in prison at Chihuahua, but that he was in prison at Ojinaga, near Juarez. In his letter Compton spelled the name "Ojenaya." The letter also stated that Compton was supposed to be a Mexican, and the inference was that he would be executed as a Mexican.

These facts were telegraphed to Secretary of State Bryan by W. E. Perry of Garden Grove, and Perry received the following reply:

"Washington, D. C., Feb. 25, 1914. "To W. E. Perry, "Garden Grove News, "Garden Grove, Cal.

"Department has sent appropriate telegraphic instructions to American consul at Juarez regarding information contained in your telegram, presuming that place of imprisonment mentioned is intended Ojinaga.

"The relatives here have endeavored to get trace of Mat Hollarn, mentioned in Compton's letter. The letter stated that Compton had written a letter also to Hollarn. It is hoped that that letter can be obtained and additional information secured, but as yet Hollarn has not been located. He formerly lived at San Diego, where he worked with Compton. The police there have searched for him, but cannot locate him. They say he left San Diego to go north some time ago.

### PORTUGAL HARASSED BY STRIKING RAILWAY MEN

MADRID, Feb. 27.—Reports of serious rioting in Lisbon and elsewhere in Portugal, current here today, were confirmed in a statement issued by the department of the interior, declaring that a state of anarchy prevails in Lisbon and a serious uprising is threatened.

### Railway Strikes Menace

PARIS, Feb. 27.—Railroad communication between Lisbon and the Spanish frontier has been completely cut off by the striking railway men who belong to the revolutionary section of the Socialist party. The tracks are reported destroyed in many places, bridges blown up and telegraph and telephone communication interrupted throughout Portugal.

### ALLEGED WHITE SLAVER WHITNEY UP TOMORROW

SAN FRANCISCO, Feb. 27.—J. Parker Whitney, the millionaire accused of transporting Genevieve Hannan between states for immoral purposes in violation of the Mann white slave act, was in San Francisco today but is in strict seclusion. His attorney, James P. Sweeney, said Whitney had already talked too much. He will appear before Federal Commissioner Krull tomorrow morning.

Miss Hannan's whereabouts is still a mystery, but it seems certain that she started for Chicago on Tuesday night. Federal District Attorney Preston said he has available evidence sufficient for a trial, regardless of her return.

### UNMERGING OF PACIFIC ROADS TO BE PUSHED

LOS ANGELES, Feb. 27.—Prosecution of the suit to unmerge the Central and Southern Pacific railroads will be pushed by the government to its ultimate completion, according to a message received by the San Pedro Chamber of Commerce yesterday from the United States Attorney General's office.

C. Carroll Pott, first assistant to the Attorney General, indicted the message. He said the suit had been instituted by the government after a full investigation which had shown there was a violation of the law and the investigation showed no other course than to file the suit could be pursued.

### PEPPER'S CONDITION SERIOUS

SAN FRANCISCO, Feb. 27.—The condition of Abraham Pepper, who shot and killed his former fiancée, Mrs. Dorothy Johnson, a bride of a week, then attempting suicide, took a turn for the worse today. His condition is serious, an operation for the wound in his skull being necessary.

## FORGER ON WAY TO COLORADO SPRINGS

C. E. Jackson Wired for Hoyer But Police Chief O'Neil Was First

### BAD CHECK MAN ARRESTED IN DENVER

Operated in Santa Ana and Other Coast Cities Some Time Ago

In reply to a night letter he sent yesterday to the chief of police of Denver asking for the return to Santa Ana of a man arrested day before yesterday and booked as "Harry Martin," but whose real name, the police say, is Harvey W. Hoyer, who was in Santa Ana some time ago, Constable Jackson today received the following telegram.

"C. E. Jackson, Constable, Santa Ana, Cal.:—Harry Martin, alias Harry W. Hoyer, was turned over to police department, Colorado Springs, Colorado.

"FELIX O'NEIL, "Chief of Police."

Hoyer stole several blank checks from the Santa Ana Machine Company and signed the name of the company's manager, C. L. Jolly, to the checks and tried to pass them in Los Angeles and other coast cities. Up to the time of his arrest he had succeeded in passing only one of the checks, one made out for \$58.50.

Jackson said today that Hoyer had a check perforating machine which perforated checks to read, "Not over sixty dollars." Hoyer made out his checks for either \$58.50 or for the even \$60.

C. L. Jolly says that there had been no attempt on the part of Hoyer to imitate his (Jolly's) signature. It looked to Jolly as though Hoyer wrote the name to imitate a woman's handwriting and that he depended probably on passing the worthless checks on strangers.

Hoyer was in Oakland on February 17, in Fresno February 19, and in Red Bluff February 26. In the latter place Hoyer passed one of his checks on Dr. Leiby for \$60. Jackson telegraphed to Leiby to arrest Hoyer but the former had left. It is presumed that Hoyer is wanted in Colorado Springs on the same charge that is held against him here.

A dispatch from Denver says that detectives found on Hoyer eight drafts for \$500 on the Commercial National Bank of Los Angeles, made payable to the United States National Bank of Denver; a cashier's receipt for a \$28,000 draft, deposited with the Salt Lake Security and Trust Company of Salt Lake City and several checks of the Santa Ana Machine Works, one of which was made out for \$75.

## NAYLOR GASE IS LIKELY TO BE REOPENED

President of Berkeley Banks Charged With False Report to Federal Comptroller

SAN FRANCISCO, Feb. 27.—Although the federal grand jury has voted an indictment charging President Frank Naylor of the First National Bank of Berkeley and of the Berkeley Trust and Savings Company with making a false report to the Comptroller of the Treasury, according to Federal District Attorney Preston, it had not been reported in court. Preston said: "I am convinced that the case will be reopened. Everyone must have a chance to defend himself."

The specific accusation was that Naylor withheld from his statement to the comptroller the report of certain certified checks alleged to have been issued to the Keystone Construction Company to be used on bids when in reality the company had no money in the bank. Naylor said the error was corrected with the approval of the bank commissioner. It is said that federal officials who recently retired here turned down the same case during their terms.

Apron sale at Gilbert's, all this week; wonderful values; on sale now. Aprons, Bungalow cover, all styles, at 50c each; Kitchen aprons with bibs, 25c each; Sweeping Caps at 10c each, now on sale. Gilbert's.

### CASTILLO, MEXICAN OUTLAW, CHARGED WITH FIRING CUMBRE TUNNEL

The capture of Maximo Castillo, the Mexican bandit, who is charged with setting fire to the Cumbre tunnel and causing the death of fifty-one people, including ten Americans, brings up a complicated problem for our government. Castillo, having been taken on our side of

the line, cannot be surrendered to any Mexican authorities without such an act involving recognition, and under our laws he cannot be prosecuted in this country. While our state department wrestles with the problem, Castillo will be held at Fort Bliss.

## LEMON SHIPPERS COURT DISASTER WILL RECEIVE MONEY BACK BY OPPOSING SUFFRAGE

Commerce Commission Orders Return of Difference in \$1 and \$1.15 Rate

WASHINGTON, Feb. 27.—The Interstate Commerce Commission has issued an important supplemental order in the case of the Arlington Heights Fruit Exchange vs. Southern Pacific et al. The effect of it is to grant repatriation to the lemon shippers of Southern California on the terms insisted on by Attorney W. E. Lamb of counsel for the lemon interests. As the result of it, about \$400,000 in repatriation will be paid back to the lemon producers of Southern California.

Part of this is held by the bond company which acted as trustee in litigation arising from the order of the Interstate Commerce Commission to reduce the lemon rate from \$1.15 to \$1 and part of it by the railroads. The order issued last night holds that the \$1.15 rate was unjust from the time of publication of the original order, November 15, 1909, to February 15, 1912, when the order finally became effective after all litigation was concluded.

Shippers are awarded repatriation for the difference between \$1.15 and \$1 on all shipments in that period, when demands for repatriation were filed with the commission within the statutory time. The order goes into detail in specifying the conditions of awarding repatriation, and it will be a matter of easy adjustment between the shippers and the railroad interests, reports being required from time to time to the commission.

### 50-POUND WEIGHT LIMIT PROPOSED FOR PARCEL POST

WASHINGTON, Feb. 27.—By a vote of 33 to 24, the senate decided today that the amendment taking from the postmaster-general the power to change rates, weights and zones of the parcel post system, is not in order, and cannot be considered in connection with the postoffice appropriation bill. Senator Bankhead then introduced an amendment forbidding the postmaster-general from increasing the weight limit above fifty pounds.

### DENIES REPORTS THAT COMPTON IS FOUND

OAKLAND, Feb. 27.—Members of the family of Harry Compton, supposed to be a prisoner in Mexico, denied the reports that he has returned. The last report received was that he was a letter from Compton when he was a prisoner at Chihuahua City, expecting execution.

Can No More Hold Back Suffrage than Niagara Falls

WASHINGTON, Feb. 27.—"It is incomprehensible to me that the Democratic party should put itself in the attitude of opposing woman suffrage," said Representative Raker of California yesterday, "for it will mean disaster to the party in the future. You might just as well try to hold back Niagara as to stop woman suffrage. It is coming and our party might just as well have the benefit of it instead of the odium of opposing it."

"The recent Democratic caucus was a mistake and ought never to have been called."

### SUFFRAGE CAUSE ADVANCES IN OLD MASSACHUSETTS

BOSTON, Feb. 27.—A bill providing for a constitutional amendment giving the vote to women was favorably reported to the Senate by the committee on constitutional amendments yesterday. It is the first time that such a report on a suffrage bill has been made in this state. The committee's vote stood nine to two.

## TOTAL DEBT OF WORLD NEARLY 43 BILLION

Earth's Population, 1,900,000,000; Increased 140,000,000 in Last Four Years

ANTWERP, Feb. 27.—A total debt of \$42,960,000,000 is shown in the accounts of all nations, according to the Bureau of Universal Statistics' figures for 1912. Thirty-two milliards are charged against Europe alone. A century ago the public debt of all countries amounted to only a little over seven milliards. The population of the earth is slightly more than 1,900,000,000, an increase of 140,000,000 in the last four years, according to the bureau. The world's commerce amounted to \$40,600,000,000, and it is carried on by 55,802 sailing ships and 47,714 steamers.

## PRACTICING FOR GRAND PRIX RACE

In Spite of Grueling Work of Yesterday's Race, Drivers on Track Today

### TOMORROW'S CROWD MAY EXCEED YESTERDAY'S

Tetzlaff Exceeded 75 Miles in Try-out on Santa Monica Course Today

SANTA MONICA, Feb. 27.—Despite the grueling work of yesterday in the Vanderbilt cup race, the drivers of the majority of the cars entered for the grand prix tomorrow, practiced today. Teddy Tetzlaff, who is an added entry, had a brisk work-out, averaging better than seventy-five miles an hour for several laps in his Giant Fiat. Tetzlaff, De Palma and Oldfield were favorites with the dopesters today. It seemed improbable today that Harry Grant can repair the Isotta sufficiently to compete in the grand prix. Grant has the last two grand prize victories to his credit.

Race officials claim that the crowds tomorrow will be greater than those of yesterday, when estimates ran from 100,000 to 200,000.

### TIME AND PRIZES IN YESTERDAY'S BIG RACE

The time records made by the prize winners in the Vanderbilt cup race driven over the Santa Monica course of 294 miles yesterday, follow: Ralph De Palma, Mercedes, first, 3 hours 51 minutes 41 seconds; Barney Oldfield, Mercer, second, 3 hours 55 minutes 1 second; W. Carlson, Mason, third, 4 hours 2 minutes 39 seconds; Earl Cooper, Stutz, fourth, 4 hours 4 minutes 3 seconds; G. Joerimann, Touraine, fifth (no time taken.) The prizes: First prize, \$3000, in addition to possession of Vanderbilt cup; second prize, \$2000; third prize, \$1500; fourth prize, \$1000.

### UNIVERSITY WISH OF GEO. WASHINGTON MAY BE FULFILLED

WASHINGTON, Feb. 27.—George Washington's wish, expressed in his will, that a university of the United States be established in the District of Columbia, may be fulfilled by a bill introduced by Senator Dillingham. The university would provide the highest possible instruction in the sciences, arts and letters.

## ITALY MAY DECIDE NO SHOW AT FAIR

Resents Clause in Immigration Bill for American Doctors on Italian Ships

ROME, Feb. 27.—Whether Italy will participate in the San Francisco exposition will depend on clauses inserted in the immigration bill now before Congress. This was the intimation in a note handed to American Ambassador Page today. The note said Italy at present intends to participate, but intimated that the clause providing for American medical men in Italian immigrant ships is something that may compel reconsideration.

Ernest E. Nathan, the Italian exposition commissioner, was host at luncheon today to Ambassador Page and the Italian minister of agriculture.

REDLANDS, Feb. 27.—W. H. Singleton and A. B. Cook have received word that about half of their orange grove at Monrovia has disappeared, being in the path of the San Gabriel river when it changed its course. They had twenty acres, but about half of the tract is now a wash, filled with boulders, and the trees have been washed to the ocean. Their loss will be about \$20,000.

### HALF OF ORANGE GROVE CARRIED OFF BY FLOOD

WASHINGTON, Feb. 27.—Congressman C. F. Curry yesterday urged the Napa River out-project before members of the senate committee on commerce, in the hope that the senate will include the plan in the rivers and harbors bill. The report of the army board which is favorable to the plan was filed. The army engineers estimate the cost of the project at \$40,000.

### CURRY URGES NAPA RIVER PROJECT ON U. S. SENATE

WASHINGTON, Feb. 27.—Congressman C. F. Curry yesterday urged the Napa River out-project before members of the senate committee on commerce, in the hope that the senate will include the plan in the rivers and harbors bill. The report of the army board which is favorable to the plan was filed. The army engineers estimate the cost of the project at \$40,000.

## Our Tustin News Letter

### SOCIETY AND CLUBS

**Class Party**  
The Philathea Sunday school class held their first class party Thursday night with Miss Avis Smith. The house was decorated with peach blossoms and smilax and harmonized beautifully with the young girls' faces as they proceeded to have a good time generally in many lively games. Dainty refreshments were served.

**Washington's Birthday Social**  
A Washington's Birthday social was given by the Women's Berean Bible class of the Presbyterian church last Monday afternoon in honor of the Home Department of the Sunday school. The Berean class took charge of the work of superintending the Home Department last year and has been contemplating for some time holding a reception and social for the purpose of bringing all the members together for better acquaintance. The occasion was a delightful one. The attendance numbered about seventy.

The main auditorium of the church was attractively decorated and arranged and a cordial reception committee did full duty.

The following program was carried out:  
Song, "America."  
Devotional exercises led by Rev. E. W. Blew.  
Piano Solo—Mrs. P. H. Ebel.  
Song, "Sweet and Low"—Mrs. E. W. Blew.

Miss Mitchell of Santa Ana, formerly a resident of Tustin, then gave a full and interesting history of the Home Department in Tustin, she being the one who organized the department several years ago.

Song, "One Day Nearer"—Mrs. B. H. Sharpless and Mrs. D. O. Janeway.  
Piano, "Scherzo Valse"—Valda Willard.

Mrs. C. E. Utt read the beautiful poem, "The Vow of Washington," by John G. Whittier, which was read in New York April 30, 1889, at the centennial celebration of the inauguration of George Washington as the first President of the United States.

Mrs. J. C. Stearns sang "A Perfect Day," by Carrie Jacobs Bond, with piano accompaniment by Miss Clara Wells. A piano piece by Mrs. P. H. Ebel ended the program.

The social hour that followed was taken advantage of by all those present.

ent for general hand shaking and pleasant chat.  
Later the company was invited to the dining room, where a luncheon of sandwiches and fruit salad, tea and cake was served. Throughout the dining room red, white and blue colors were used in decoration, and the tables were gay with the same colors, with tiny red, white and blue hatchets for favors, and cherry napkins.

**The W. C. T. U.**  
The Tustin W.C.T.U. held its regular meeting Thursday afternoon with Mrs. J. O. Preble. The meeting was opened with the song, "God Speed the Right." The roll call was responded to by those present with scripture quotations, and this was followed by reading of minutes of the last meeting.

Several ladies who attended the executive meeting at Orange last week reported items of interest to the Tustin Union. One point was: To assist in carrying on the California Dry campaign each lady was requested to make an extra dollar this year. Each one was asked to make a special effort to obtain new members during this year, each union getting five at least. Each union was requested to organize a Dry Federation League and also to hold a medal contest.

The next meeting will be the annual meeting, with reports of committees, payment of dues and election of officers, and will be held with Mrs. Sarah Brown.

The business session ended, Mrs. E. J. Cranston sang a solo, accompanied by Mrs. P. H. Ebel. The meeting was then given in charge of Mrs. Harry Lewis and Mrs. Geo. Hubbard, this being Union Signal Day. The Union Signal is the national official organ of the W.C.T.U. All were urged by Mrs. Lewis to renew their subscriptions for this year.

"An Interview With the President" was then read by Mrs. Geo. Brown, and "Have We a Free Press?" by Mrs. C. H. Smith. Quotation from "The Times" about "Electric Signs," and "Our Washington Letter" were read; also a letter from Alaska protesting against the United States sending troops to that country. An instrumental piece by Mrs. Ebel was "Farewell to the Alm." Then followed a communication from the Casburg Board of Trade, read by Mrs. C. A. Miller.

Another enjoyable piano piece which varied the program was a duet by Miss Margaret Tingley and Mrs. J. O. Preble, "The Soldier's March," from Faust. Mrs. Hubbard then read an interesting quotation from "David Copperfield," and this was followed by a general discussion of interesting subjects until adjournment, which brought to a close the very interesting and highly instructive meeting.

**School Notes**  
Plans for the new school house have been completed and approved and are now open for bids. The new school grounds will have ample room for a fine baseball diamond, and enlarged school gardens. A good many of the fruit trees will be left to grow and pupils will be taught to graft and bud.

During the past week several new pupils have been received from other districts. The school is increasing in numbers and the tax on the capacity of the old school house is becoming greater. The average daily attendance in the seventh and eighth grades is 41.

**Mass Meeting**  
A mass meeting of temperance workers will be held tonight at the Advent Christian Church. All who are interested in this cause are urged to attend.

A parliamentary drill for the Y. P. B.'s will be followed by short speeches and a Dry Federation League will be formed.

**To the Orange Show**  
An automobile party composed of Mr. and Mrs. W. L. Shatto and her mother, Mrs. Watson, and sister, Mrs. Davis, went over to San Bernardino and Riverside Wednesday. Mrs. Shatto will visit friends in Riverside while the rest of the party attend the Orange Show at San Bernardino.

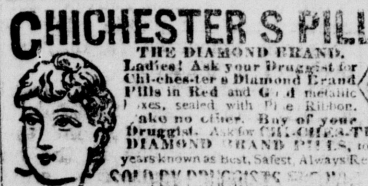

**Literature Section**  
The Tustin Literature Section will meet next Tuesday afternoon with Mrs. W. L. Lieby at the home of Mrs. O. A. Lieby on the corner of Third and California streets.

**Expresses Thanks**  
A member of the Home Department of the Sunday school of the Presbyterian church, in behalf of that department, desires to thank the Berean Bible class for the delightful afternoon spent last Monday by all the members who attended the reception and social.

**Freeman-Phinney**  
The marriage of Miss Alice Estelle Phinney to Charles L. Freeman of Heber, Imperial Valley, was consummated Wednesday afternoon at 2 o'clock at the home of the bride's parents, Mr. and Mrs. J. A. Phinney. The groom is the son of Mr. and Mrs. J. W. Freeman, and formerly lived here, but is now employed by the Southern Pacific railroad at Heber, where they will reside.

The bride wore a soft brown silk costume, completed on going away by a modish coat to match. The wedding was a quiet one and the bride and groom were unattended. Smilax and lilies made the home beautiful for the occasion. Only relatives witnessed the ceremony, which was performed by Rev. E. W. Blew of the Presbyterian church.

Miss Phinney is one of the well-known and well-loved girls in Tustin, and in anticipation of her marriage her friends have given several showers of lovely gifts. Many handsome

## BANQUET WAS BIG SUCCESS

Judge Thomas Addresses the  
Young Men of Garden Grove  
Y. M. C. A.

GARDEN GROVE, Feb. 27.—The banquet given last evening at the Y. M. C. A. hall by the "reus" to the "blues" was a grand success, about 100 being served. A splendid address was given to the young men by Judge Thomas of Santa Ana. Mr. Fitz called the roll and all present responded by giving their names and places of birth. Several different countries were represented, among them being Holland, Russia and Corea, but there were more from California than from any other place.

Secretary Hamilton was toastmaster of the evening. During the banquet music was rendered by Mrs. J. T. McElree, Mrs. Estes, Waltz and Irvin Gorman.

**Garden Grove Newslets**  
J. W. Crill and Mrs. G. M. Hiller are preparing to set out 200 acres to orange trees.

H. C. Powell has just finished setting the place which he purchased from H. S. Ayres to five acres of Eureka walnut trees.

Mrs. J. N. Kerner, who spent several days in Los Angeles last week returned home on Monday.

Mr. and Mrs. Chas. Swall, Miss Hazel Swall and Miss Lola Coplin attended the Orange Show at San Bernardino. They returned on Wednesday, reporting that the show was a splendid one and the roads in fine condition.

J. N. Kerner was in Santa Monica yesterday attending the road races.

Geo. Eells will move soon to Corona, where he has rented a large tract of land on which he will farm.

## "SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative"  
Can't Harm Stomach, Liver  
and Bowels

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Advertisement.

**GO UNCLE SAM  
ONE BETTER-TAX YOUR  
INCOME  
YOURSELF!**

PERHAPS you are not making \$3,000 or \$4,000 a year. The income tax doesn't affect you. Cheer up. You may make enough some day to pay Uncle Sam his small tax. Meanwhile TAX YOURSELF. Set aside a certain amount of your earnings and let us pay you for keeping it. This kind of taxes is not as sure as death, but it's a lot more pleasant. Meanwhile—

INVITE US TO HELP YOU TAX YOURSELF.

grain and raise hogs and calves.

Earl Kendall went to the races yesterday.

On Sunday Mrs. Kerner will entertain her daughter, Mrs. Wilson, and Mrs. Watson, a friend. Both ladies are from Chicago and will spend a few months here, returning to their homes next week.

Mrs. Simon slipped last Saturday on the floor of her kitchen, breaking her arm at the wrist. She is improving, but the fracture has caused her much pain. Mrs. McGarity of Santa Ana stayed with her for a few days, but Mrs. Simon's daughter, of Los Angeles, came yesterday and will stay with her for a while.

H. C. Powell has sold five acres to Wilbur Hammond, who will set it to orange trees at once.

H. C. Dennis will set his five acres to Valencia orange trees soon. Mr. Dennis' place joins the one on the east that was just bought by Mr. Hammond.

P. M. German was a business visitor at Los Angeles yesterday.

There will be a baseball game on Saturday at 2 o'clock sharp, at the Garden Grove school grounds between the Garden Grove team and the Schoolmasters' League of Los Angeles.

J. J. Swartzbaugh is putting down a new 12-inch well on his ranch northeast of town. E. M. Elliott is doing the work.

R. E. Longstreet of Olinda is setting out 10 acres to walnut trees, on the place located just east of the Hayes ranch. J. B. Hayes is setting the north 10 acres of his place to Valencia orange trees and the south 10 acres to walnuts. W. D. Jones of Olinda is setting ten acres to walnuts. These three men, Mr. Longstreet, Mr. Hayes and Mr. Jones, with H. L. Holt, have put down a 12-inch well and are installing a Krough pump and will use electric power for pumping. A thirty-horse power motor is being installed. The place is one mile north and one mile east of Garden Grove.

Mr. Aldridge has sold his twenty-acre place just east of H. C. Powell's home to a Los Angeles man and will set it to oranges. The price was \$12,000.

## HOMES OF THE SYRIANS.

Where it is Little Trouble to "Take Up Thy Bed and Walk."

On the right as you enter the house stands a small structure of sun dried brick, called mekhdah. It is about five feet high, six feet long and a foot deep. On the inner side it is divided into openings of different sizes and serves the cosmopolitan purpose of a china closet, kettle cupboard, a place for father's Turkish pipe (nargile) and tobacco and whatever other little articles it may be convenient for the moment to thrust into it.

The maukedah (fireplace) is at the forward end of this structure. It is such a fireplace as you would build at a picnic-square, open at the top for the kettle to set in and at one side to admit the fuel. It is built of clay mixed with straw and fine quartz. There is no chimney. The smoke floats in the house with the suzerainty of public opinion. The ceiling is black and shining, as if it had been varnished. The earthen floor is painted frequently with red mud and rubbed with a smooth stone until it shines. It is furnished with straw mats, cushions and in the winter season soft and fluffy sheepskins.

There are no chairs, no beds. The family sit and sleep on the floor. The bed consists of a thick cushion for a mattress, stuffed with wool or cotton, a pillow of the same material and a quilt for a cover. So when Jesus said to the man he had healed, "Arise, take up thy bed and walk," the man did not have very much to carry. In the daytime the beds are either rolled up, each one, in a heap and left on the floor next to the wall or put in a recess in the wall, constructed for the purpose.—Atlantic Monthly.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Advertisement.

## THREE KINDS ARE PLANTED

Walnuts, Apricots and Peaches  
Set Out in Westminster  
Orchard

WESTMINSTER, Feb. 27.—George and Ed Finley have put in a seven-acre orchard of walnut, apricot and peach trees.

Rev. A. C. Junkin returned to the home of his sister-in-law, Mrs. Eva Dickey, after spending two months with his son, W. D. Junkin, at Garden Grove.

J. Price of South Dakota arrived last week with a car of goods and will make his home in Westminster as soon as the family arrives.

Rev. W. E. Perry of the Y. M. C. A. of Garden Grove preached at the M. E. church Sunday morning and evening.

Charles and Earl Frost of El Segundo spent Sunday and Monday with their parents, Harrison Frost and wife.

Mr. and Mrs. E. Haase of Fullerton were Sunday guests at Charles Parr's home.

Frank Watson, who has been sick for a week, is able to be out.

Mrs. A. Carlyle of Santa Ana is spending this week with her son and daughter, F. Carlyle and Mrs. J. N. Patterson.

James Upton is quite sick. His sister, Miss Gertrude Upton of Compton, is spending the week with him.

Mrs. Wm. Morrill spent several days with Mrs. Chas. Buck this week.

Last week's storm brought about three inches of rain, which did a great deal of good and very little damage to this section.

C. B. Reese of Sierra Madre was a Monday visitor at the home of Chas. Smithing.

The Home Telephone system was put out of commission on Saturday by a tree falling across the wires and breaking seventeen of them. It took half a day to repair the damage.

Mrs. Carl Hagan spent last week in the city.

## TACT OF EUGENIE.

Diplomacy of the French Empress on a Question of Dress.

A curious instance of the diplomatic methods of the ex-Empress Eugenie is worth recalling.

When Queen Victoria, Prince Albert and the princess royal were about to visit Napoleon III, and the Empress Eugenie it was feared at the French court that the young princess royal would not be dressed in a style that would harmonize with French taste.

The question was how to beguile her royal parents into dressing the child in a suitable manner.

In this difficulty the empress had a really brilliant idea. The height and other measurements of the princess royal were obtained and a doll of exactly the same size procured. The doll was provided with a large and exquisitely finished tressure, and it was then dispatched to Buckingham palace as an imperial gift to the princess.

The expected happened. Queen Victoria, enchanted with the doll's wardrobe, transferred most of the outer garments to her daughter for use during their visit to the emperor and empress. The result was that the princess appeared at her best, and everybody was pleased.—London Spectator.

## Criminals of Manila.

"Criminals are practically unknown in Manila," observed an official of that city. "I mean by this that there is no criminal class in the islands, as there is in European countries and in the United States. The yeggman, the professional pickpocket and sneak thief do not exist there. Of course we have to deal with high crimes, and there are a considerable number of murders. Doubtless this is due to the mercurial temperament of the people. The Filipinos are much like the Spaniards. They are easily angered and commit murder in a moment of passion. The spirit of revenge also is pronounced among the Filipinos. I have found that most of the murders committed are traceable to that old motive—the eternal triangle. I don't recall any murders in the Philippines that were committed with guns. The weapon ordinarily used is the knife or bolo."—Washington Post.

## GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents.

Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advertisement.

Consult Dr. Enoch. Sunset phone 47.

## FAVOR ESTABLISHMENT OF COUNTY PARENTAL SCHOOL

The school trustees gathered at the Orange County School Trustees' Institute yesterday voted in favor of a movement to establish a parental school in this county. The matter is to be presented to the Board of Supervisors.

The institute was called to order at 10 a. m. by County Superintendent of Schools R. R. Mitchell, who was elected chairman. Mr. Reed of Loara was chosen secretary.

The program was carried out as prepared. Superintendent Mitchell discussed the subject, "Changes in the School Law." He explained the following acts passed by the legislature of 1913:

The State Board of Education, the Teachers' Retirement Act, the Election and Appointment of Trustees, the Establishment of Kindergartens and School Houses as Civic Centers, and he also reviewed laws which have been in the code for a number of years.

Rev. J. H. Scott, county probation officer, spoke on "The Need of a County Parental School." Mr. Scott stated that the school districts should petition the board of supervisors to form a Parental School district. The trustees present felt that such a school should be established and in order to take the matter up in a legal manner, Mr. Mitchell stated that he would prepare a number of petitions addressed to the board of supervisors and mail them to the district clerks to be signed by the various school boards and returned to him to be filed.

Prof. Arthur H. Chamberlain, editor of the Sierra Educational News, San Francisco, spoke on "The Teacher and Trustee in Double Harness" and also on "Socializing the Rural School." He said that the spirit of co-operation should exist between trustees and teacher. Each should feel free to talk frankly with each other regarding school work.

On the subject of "Socializing the Rural School," the speaker emphasized the value of large playgrounds, proper sanitary conditions and experimental gardens.

At noon lunch was served in the building. This part of the program was enjoyed by everyone. Toasts were given as follows: "The Work of the State Normal School," Miss Burney Porter, appointment secretary; "Schools in the Western Part of the County," Arthur E. Paine, supervising principal; "The Need of More Supervision of Schools," Superintendent J. A. Cranston of Santa Ana.

At 1:15 the convention was again called to order and W. M. Fishback, president of the County Board of Education, explained the value of county examinations. The subject was well presented and a number of questions were asked the speaker at the close of his talk.

Mr. Keppel, school superintendent of Los Angeles county, then addressed the convention on "School Funds." Mr. Keppel stated that statistics prove that the best results are obtained in rural schools—that these schools have the highest average daily attendance and that the pupils of these schools are taught better than the children in city schools.

Mr. Keppel explained the law relating to the levying of school taxes by the state, county and school district. He was of the opinion that under the present law wealthy districts were able to collect more money than was needed to support the schools, while in other districts, on account of the smaller assessed valuation, districts were unable to maintain good schools. He favored such a change in the law as would compel the county to levy \$25 per pupil instead of \$13 as at present.

Trustees were asked to submit questions for discussion. The question, "Should pupils be required to do home study," brought forth an animated discussion. The affirmative was upheld by Messrs. Cranston, Paine, McColloch and Mitchell, while Mr. Keppel argued against the proposition.

It was almost 5 o'clock when a motion to adjourn carried.

## IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."  
Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous drooping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

## GUARDIAN NAMED SO 19-YEAR-OLD YOUTH COULD WED AT ONCE

Where there is a will there is a way, and also love is not blind when it comes to devising means for securing a marriage license. Merle Collins, aged 19, of Anaheim ran up against a difficulty yesterday when he went to County Clerk Williams after one of those pieces of paper that bear a gold seal and give persons and justices of the peace authority to wed those whose names appear thereon as principals.

Collins appeared at the office with Miss Irene A. McDowell, aged 16, also a resident of the Mother Colony. Miss McDowell's mother was present, and signed an affidavit giving permission to her daughter, whose age was under 18, to marry Collins.

"I am not 21," said Collins, "but I have no parents. I am an orphan. I want to get married. I am my own boss."

"As things stand now I can do nothing for you," replied County Clerk Williams. Collins said he did not want to wait until he became 21. Collins was up a tree until William helped him down by suggesting that he have the court appoint a guardian, who would have authority under the law to grant permission to wed.

So Collins went to the office of Attorneys Scarborough & Foray, and it was only an hour or two until Elmer B. Burns, by whom Collins is employed, was the legally constituted guardian of Merle Collins. Burns signed up an affidavit, and Collins got the marriage license.

## LOOSE STOCK IS CAUSING DAMAGE

There has been considerable complaint lately to the police of horses, mules and other stock being allowed to run loose in the neighborhood of West First street, near the water works. This morning Mrs. Robinson telephoned to the city hall from her home at 907 West Walnut street, saying that a Mexican's horses were trespassing on her property and were causing damage. Mrs. Robinson had telephoned to the city pound but was told that it was not the business of the stables to go after loose stock but that the pound-master was required to take the stock in charge if brought in. The police are at a loss to know whose business it is to capture loose horses, if it is not the pound-master's.

It was said at the city hall that many Mexicans in the West First street district are in the habit of raising the fence wires of property not their own and allowing their stock to graze during the night. In the morning, before the owners of the property are awake the horses and mules are captured again by the Mexicans and taken home.

Consult Dr. Enoch. Sunset phone 47.

## Logie of Youth.

"Father," exclaimed John vigorously, "why don't Quakers take off their hats?"

"Because, my son, it is their belief that to remove their hats is a mark of respect that they think they should pay to no man."

"Well," remarked the boy after a moment's silence, "how do they manage when they have to have their hair cut?"—Youth's Companion.

Oversturdy.

Books are pleasant, but if by being overstudious we impair our health and spoil our good humor, two of the best traits we have, let us give it over. I, for my part, am one of those who think that no fruit derived from them can recompense so great a loss.—Montaigne.

Lines on the Forehead.

The lines on the forehead are caused by perpetually raising the eyebrows, and no permanent help can be had until the habit is in some measure conquered. The lines should be massaged across the furrows and with a rotary movement outward toward the temples.

### SPECIFICALLY NONPARTISAN

It is very important at this time that all qualified voters intending to take part in the approaching primary election, or such as may be called upon to sign nominating petitions, should understand the new primary law in relation thereto.

It should be remembered that the great aim of the law is to determine the will of the people in public affairs, and not chiefly to promote partisanship. While the law provides for party affiliation it is not the paramount idea. It is specifically non-partisan, and strictly so in the matter of Justices of the Supreme Court, District Courts of Appeal, Superior Courts, elective county officers and township courts.

Nominations for all these are made locally and by petition, and the law stipulates positively that "the word 'party' shall be omitted from said document" (petition). And the act further reads: "That no such nomination paper, nor any section thereof shall contain the name of any political party, of any signer thereto, nor shall the candidate be referred to as a candidate for nomination of any party, and any nomination paper for any candidate for a judicial office, school office, county office, or township office, may be signed by any qualified elector of the county, whether registered as being affiliated with any, or with no, political party." This eliminates all party affairs and party action on the part of both the candidates and their petitioners.

However, all political parties which comply with other provisions of the act will have their respective party tickets at the primaries, but these must be alike in their designations for the judicial, county, school and township offices, and in that respect be like the nonpartisan ticket, all being the same as the nonpartisan ticket in local matters. Each voter who has not declared a party affiliation at registration shall be supplied, at the primary, with such nonpartisan ticket. The voter may have a political preference, declared or otherwise, but here it fails to get an expression.

Under this law, and in practice, it is wholly unnecessary for a so-called local candidate to publicly declare his or her politics, or to take an active part in a party campaign. Candidates can have political preferences, and usually do, but this law relieves them from boosting a party in order to promote their own candidacy. Each must succeed upon his or her own merits, and the good will and favor of the people.

### CENSORING MOVING PICTURES

Those who were instrumental in securing the passage of an ordinance by which a Censor Commission for Santa Ana was created had in mind its application to a particular brand of undesirable show that seemed to be having quite a successful run in Santa Ana. That the operation of the law and the attitude of the Censor Commission were largely responsible for the financial failure of both the old Mirror Theatre and the Cozy Theatre may be accepted as truth. The long continuance of such performances as were presented at those theatres in all their crudity and near-vulgarity is now practically impossible in Santa Ana; for fear of consequences under the law prevents managers who would put on that class of so-called entertainments from making them rough enough or sufficiently salacious to appeal to those who like that kind of a show. It has been asserted that the cheap shows, such as those were, were made so tame that they failed longer to fill the houses, and they soon had to quit business here.

With that phase of public entertainment out of the way, some of those who are interested in preventing the presentation here of productions of any kind that may be considered as immoral or degrading have turned their attention to the moving picture shows. True, the moving pictures were not severely criticised in the representations made in furthering the passage of the ordinance; but as an after-thought the great influence of the moving pictures and their popularity has been taken up for consideration by the Parent-Teacher Association of the Polytechnic High School. Since that time City Attorney Heathman has stated that the Censor Commission ordinance of Santa Ana gives the Commission no authority over moving pictures.

The question now comes as to the advisability of Santa Ana passing a

new ordinance or an amendment to the old ordinance to give authority to the Commission to stop the showing of objectionable films. That, of course, is a local matter, to be decided here; but the censorship of moving pictures is a much bigger question than any locality can solve. It is going to take federal or state legislation finally to put the censorship of films upon the proper basis. There is no question but that the censorship should be at the source, not at the distributing ends. Eventually there will be a law that will prohibit the showing of any film in California unless it has first been given the sanction of a commission.

We have pure food laws, pure drug laws, correct weights and measures laws, and why not a pure stage law? And that does not necessarily mean drastic reform, either, but it does mean that it is quite possible by legislation to rid the various municipalities of the worry of censorship. Through a state-wide system only can any great good be accomplished along that line.

For the present, Santa Ana is hardly in a position to demand that every film shown in Santa Ana be first passed upon by a commission here. Even if Santa Ana should conclude to make such a demand, there are hundreds of cities of lesser size unable to cope with the problem.

One method by which successful censorship could be secured here would be to pass an ordinance creating a moving picture censor board, and name upon that board the members of the Los Angeles board. Los Angeles censors every moving picture that is shown in that city, and the censorship is considered quite severe. If Santa Ana could be satisfied to say that any motion picture play passed by that board can be shown here, the plan would work out, provided there is no legal objection. At the present time a moving picture film may be thrown out by the censors in Los Angeles and yet be shown in Santa Ana.

While temporary protection may be secured, there is little question but that the real solution lies in widening the scope of censorship to take in the entire state or nation.

At present only a large city like Los Angeles or San Francisco can afford the expense of maintaining a separate censor system. They can protect themselves, but every small city and hamlet of the state will have to remain at the mercy of the moving picture show people until the state offers them the protection they ought to have.

## WE DO NOT HAVE TO WIN; WE DO HAVE TO BE RIGHT

William Allen White on the Future of the Progressive Party

The spirit of Progressivism has repeatedly been expressed by all its leaders—such men as Roosevelt, Johnson, Rowell, William Allen White, Albert J. Beveridge, et. al., in one or other paraphrase of Lincoln's famous saying to the effect that we do not have to win but we do have to be right.

In the March American Magazine Ray Stannard Baker, writing another letter from the field in his new series entitled "Seeing America," reports the development of the Progressive Party and of progressive ideas in the West. In a letter to Mr. Baker, William Allen White, the famous Kansas journalist and politician, says, in part, with relation to the future of the progressive movement:

"The movement is not in its '56 or its '60. It is along in the forties as near as I can guess. We will come into power—if at all as a party—in the twenties. But perhaps we shall not come into power at all as the Progressive Party. I know no leader who cares much one way or another. What we have done is to set America thinking of altruism in politics, to considering justice before prosperity, and to change definitely the trend of American political thought from an egotistic philosophy to an altruistic philosophy. Our leaders are for the most part glad we did not win last year. Victory in 1912 would have been a calamity. We would not have made good. We should have injured our cause by getting ahead of public sentiment. Whether or not we shall sow for the Socialists to reap I don't know. I don't care. But I do know we are sowing good seed."

## HERE'S A FAIR SAMPLE OF REACTIONARY 'FAIRNESS'—HUH!

The following telegrams passing between Francis J. Heney and Meyer Lissner are self-explanatory:  
Los Angeles, Feb. 20, 1914.  
Francis J. Heney,

Phelan Bldg., San Francisco.  
Los Angeles Times today has story from San Francisco saying—Heney claims that Governor Johnson and Meyer Lissner have put Chester Rowell into the race against him. Heney claims that he has copies of letters written by Johnson to Lissner in which the plan is revealed to get Rowell the endorsement of the Progressive party instead of giving it to Heney. At a secret meeting held a few days ago attended by a number of Democratic members of the state central committee, many of whom are also federal office holders, Heney read what purported to be copies of letters, six altogether, which have passed between Governor Johnson and Meyer Lissner. Heney explained that he did not want any of those present to mention the matter of the letters as he expected to produce them himself later in the campaign. Is there any truth in these statements? Do you claim to have copies of any letters written by Johnson to me on the senatorial or any other subject?  
(Signed) MEYER LISSNER.  
San Francisco, Feb. 20, 1914.  
Meyer Lissner,  
Lissner Bldg., Los Angeles.  
Replying to your letter telegram just received. Please give as wide publicity as possible to my answer which is that today's Los Angeles Times story is an infamous falsehood made out of whole cloth and published solely for malicious purpose of injuring me and the Progressive cause generally. I had no secret meeting with any Democratic members of the state central committee or with any federal office holders at any time or place, and I never read what purported to be copies of any number of letters or of any letter to any person whomsoever which were or was alleged to have passed between Governor Johnson and yourself. I have not seen the article mentioned in your telegram, but if libel suit can be predicated upon it I shall institute suit against Times upon my arrival in Los Angeles early in March.  
(Signed) FRANCIS J. HENEY.

### MAIN STREET, ESCONIDO, TO BE MADE PALM DRIVE

ESCONDIDO, Feb. 27.—Grand avenue, the principal business street of Escondido and the street that leads to the Santa Fe station, is to be converted into a palm drive, with parkings in flowers of red and white. The work will be done next Wednesday at an old-fashioned "bee," in which the newly organized Floral Society will serve free, open-air dinner to all who come to help.

### LAUNCHING OF ALVARADO AT LONG BEACH, MARCH 12

ALVARADO, Feb. 27.—The date for the launching of the steamship Alvarado, being constructed at a cost of \$225,000 by the Craig shipbuilding plant of this city, has been postponed from March 10 to March 12, because of tide conditions. The name of the young woman who will formally christen the big steel vessel has not been made public.

### TRIBESMEN BESIEGE 150 GENDARMES AT KAZRUN

TEHERAN, Persia, Feb. 27.—Persian gendarmes from Shiraz and British marines from Bushire are hurrying to the relief of 150 gendarmes besieged since yesterday in the barracks at Kazrun by several thousand Vashidwan tribesmen. Desperate fighting is reported, with heavy losses on both sides. The commander of the gendarmes, Major Ohlsson, Swedish, is among the slain.

### Horrible Blisters of Eczema

Quickly cured by Dr. Hobson's Eczema Ointment. C. P. Caldwell, of New Orleans, La., states: "My doctor advised me to try Dr. Hobson's Eczema Salve. I used three boxes of Ointment and three boxes of Dr. Hobson's Derma Zema Soap. Today I have not a spot anywhere on my body and can say 'I am cured.' It will do the same for you. Its soothing, healing, antiseptic action will rid you of all skin humors, blackheads, pimples, Eczema blotches, red unsightly sores, and leaves your skin clean and healthy. Get a box today. Guaranteed. All drug stores, 50c, or by mail, Pfeiffer Chemical Co., Philadelphia & St. Louis.—Advertisement.

## The People's Forum

However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

### Women, What Are You Going to Do With Your Votes?

Editor Santa Ana Register.  
Allow me again to open the "Forum," by asking the women who read the Register what they are going to do with their vote this year. Perhaps some will say it is none of my business how they vote. But it is. Their vote will affect me and my vote will affect them; therefore we have a right to put this question squarely to one another. Without awaiting a reply let me ask another question. Who lifted us out of the class of idiots, lunatics and criminals and gave us the ballot? The Prohibition party and the Socialists have always stood for woman suffrage since they were first organized. With them the best men of the two old parties voted for the amendment that set us free. Neither the Republicans nor the Democrats, as a party, even took any notice of us. But, says one, "The Progressives are for us." Yes, when they saw we were going to succeed anyway they sidled close to us and looked askance at us and put in their platform a plank for us to stand on. But I confess I have some misgivings about such sudden conversions. When Mr. Roosevelt was president he had a good deal to say about "race suicide" and held us closely to the keeping of at least one commandment—"increase, multiply and replenish the earth," which commandment, by the way, was never given to this generation, but to Father Adam and to Mother Eve, when, so far as we know, they possessed the whole earth, and again to Noah after the flood when each family might have had a whole continent to itself. Now I should have thought better of his "progress" if he had left off crying "race suicide" and had done more to make better homes for the children who are already here. Never a word from him on the enfranchisement of women, or on the destruction of the liquor traffic which is responsible for the death of thousands of infants every year.

Again I ask, What are we women going to do with our votes this year? Surely we will not give them to any party that has not championed our cause or given us a plank on which to stand. I always admired the loyalty of the colored race to the Republican party, the party that set them free. But to neither of the old parties do we owe any allegiance whatever.

Answering my question for myself, I will say that, since the state of Colorado that I love so well has set me free, I am going to use my vote to help free my state. She is in the grip of a mighty tyrant—the liquor traffic. The call for help has come from 80,000 of her citizens, and I shall feel that I am a traitor to my state if I do not cast my vote for the destruction of this mighty foe, which is not only robbing her of wealth but is filling her prisons and insane asylums with those who, but for this curse, might be contributing to her growth and prosperity.

To my surprise a few women failed to respond to Mr. Chaffin's call for pledges to support a temperance party. Perhaps these women do not appreciate their freedom and do not intend to vote at all. If such is the case I hope they will reconsider the matter and recognize the obligation which their enfranchisement has laid upon them—the obligation to destroy our country's greatest foe.

General Lew Wallace, the author of "Ben-Hur," attended the rendition of his famous book as given one night by Montaville Flowers in the author's home city, Crawfordsville, Ind. At the close General Wallace put his arm about Flowers and said, "This is by far the best treatment my book has ever had." The Cincinnati Enquirer had this to say about the rendition of this play in this city: "Though a resident of this city and in his fiftieth appearance here in ten years to the largest audience in the history of the Y. M. C. A. star course, nearly 4000 people, Montaville Flowers was the extraordinary attraction at Music Hall last night. He presented the monologue of 'Ben-Hur' in a powerful enactment, full of dramatic force and intensity of delivery. In the chariot race scene he reached a climax which is seldom witnessed and which was warmly greeted by the applause of the audience."

## MUSIC RECITAL TONIGHT

Miss Hornby, Harry Garstang,  
Miss Norman to Appear in  
C. E. Union Benefit

The music recital to be given tonight at 8 o'clock at the First Presbyterian church under the auspices of the recently organized Christian Endeavor Union promises to be of high character. The friends of the union, which is to receive the benefits of the recital, as well as the general public will not only add a good cause by attending this recital but will be given more than generous value for the small admission sum charged. The program following indicates a real treat for lovers of music:

Song—Recit. "And God Said"; Aria: "With Verdu Clad"; "Creation" (Haydn), Miss Hornby.  
Organ—(a) "Prelude" (from The Hugenots) (Myerbeer); (b) "Caprice" (Caden), Mr. Garstang.  
Songs—(a) "Mifanwy" (Forster); (b) "Kashmiri Song" (Indian Love Lyrics) (Finden); (c) "Birthday" (Woodman), Miss Hornby.  
Violin Solo—"Serenade" (Franz Drell), Miss Norman.  
Exquisite—(a) "L'Heure" (Hahn); (b) "Printemps Nouveau" (Vidal); (c) "Romance" (Debussy); (d) "Murmures Luecthen Bluetenwind" (Jensen); (e) "Du Bist wie eine Blume" (Schumann), Miss Hornby.

Organ—(a) "Die Frage" (The Question); (b) "Die Antwort" (The Answer) (Wolstenholme), Mr. Garstang.  
Songs—(a) "Land of the Sky Blue Water"; (b) "Dawning" (Caden); (c) "Ah, Love but a Day" (Beach); (d) "Down in the Forest"; (e) "Love, I Have Won You"; "Cycle of Life" (Ronald), Miss Hornby.  
Organ—"Suite Gothique" (Boellman); (i) Introduction—Choral; (ii) "Minuet Gothique"; (iii) "Priore a Notre Dame"; (iv) "Toccata," Mr. Garstang, Accompanist, Mr. Garstang.

Travel Section Number Two  
Ebell Travel Section Number Two will meet on Monday afternoon next at the home of Mrs. F. M. Emerson, 810 Riverine.

Prize Picture on Exhibit  
The prize picture of the coming art exhibit to be held for the pupils of Santa Ana schools, March 2 and 3, at the Intermediate School building, arrived this morning and was placed in Mateer's Drug Store, where it will be seen until tomorrow evening by the school children and others.

For Mrs. Johnstone  
Mrs. E. H. McMahon entertained yesterday afternoon in honor of her friend, Mrs. George I. Johnstone of Colton, who is visiting in this city for the week. The friends invited to spend the afternoon at the McMahon home on Birch street were the following: Mrs. J. M. Cain, Mrs. H. A. Wassum, Mrs. W. L. Duggan.

The afternoon was in the nature of a Kensington, and following the chat and needlework a two-course collation was served, patriotic colors being used in the viands, the same colors having been used in the decorations of the house and table.

PROGRAM PARTY—SUPPER  
French Home Scene of Enjoyable and Unique Function Yesterday Afternoon

Mrs. C. E. French and her daughter, Miss Ethel French, yesterday afternoon entertained with a delightful and unique program party and supper. The invitations to this function had requested each guest to be prepared with something with which to entertain the company. The result was all that could be desired, every one contributing to a program that was unusually enjoyable. There were readings and recitations, anecdotes and music, one of the most charming features of the latter being a solo beautifully sung by Mrs. Ella I. Fyfe.

For the supper served later, pink roses, nodding from a basket and reflected by a mirror base, made an exquisite centerpiece which was completed with bows of pink tulle. At either end of the table were friezes in vases adorned with the filmy tulle. Covers were laid for the hostesses and Mesdames Ella Fyfe, J. E. Liebigs, Laura Gilbert, Harry Gilbert, J. G. Bailey, Fannie Wares, J. H. Walker, E. E. Paul, Grace Wright, O. C. Edge, E. G. Holmes, J. Stewart, P. C. Wedell, J. W. Tubbs, W. S. Peek, E. B. Burns, Misses Waugh, Mary Talbot, Alice Curtis, Mary Taylor, Alice Wares.

Neighborhood Club  
The Neighborhood Club was entertained yesterday afternoon by Mrs. H. Machander at her home on East Santa Clara avenue. A color scheme of yellow was carried out in both decorations and refreshments, the latter consisting of salads, sandwiches, chocolate and delicious home-made candy. Games and music passed the hours of the afternoon most pleasantly while the ladies varied the program by working over their embroidery and dainty sewing. The next meeting of the club will be held with Mrs. A. H. Theal, 1150 East Santa Clara.

The ladies present yesterday besides the hostess were Mesdames Pulver, Sexlinger, Roy Pollock, William Hoefer, Chas. Davis, A. H. Theal, F. Schroeder, A. Schildmeyer, Garlock, Hemet, T. Groat of Orange, J. W. Broomfield, Miss Schroeder, Margaret Romer, Hester Sexlinger and Nelda Machander were the winsome girls who served refreshments.

Students' Recital  
The pupils of C. A. Gustlin, manager of the Orange County Conservatory of Music, will appear in a recital tomorrow afternoon at 4:15 o'clock at the Conservatory. The patrons and friends of the Conservatory are invited to attend this interesting recital.

Interesting Meeting of Circle  
The very pleasant meeting of the Amphion Circle was held yesterday afternoon at the home of Mr. and Mrs. E. J. Eaton, 144 West Seventeenth street. A goodly number of the members of this enterprising society of the First Congregational church were present, and an animated discussion of some rather ambitious plans was held over the pretty fancy work that kept fair fingers busy. An outline for the next meeting of the Circle was also an interesting topic.

After a most satisfactory and animated meeting, the hostess, Mrs. Lewis Ewing, who was entertaining the Circle at her mother's home, served appetizing doughnuts and hot coffee.

Baby Show Tomorrow  
Tomorrow (Saturday) afternoon at 3 o'clock at the Intermediate High School building on North Main street, will be held the McKinley Parent-Teacher's Association Baby Show. The awards will be read by Mrs. F. H. McElree and it is urged that all mothers who have their babies entered may be there at that time.

There will be no admission charged and all are most cordially invited to attend and see the handsome lot of youngsters that our fair city can boast of.

Mila Tupper Maynard Coming  
Mrs. C. H. Wilson was hosting to the Woman's Committee yesterday afternoon at her home, 1126 West Pine street. The meeting was opened with a solo by Mrs. Hardena Millbank. Mrs. C. H. Wilson then read a poem by Berton Bralley entitled "A Creed." This was followed by the usual routine of business during which it was decided to have Mrs. Mila Tupper Maynard deliver a lecture in this city on Thursday evening, March 19th, on the subject "The Self-Supporting Woman." Mrs. E. J. Barnes then read a paper on "Why Are We Here, and What Are We Here For?" which was followed by a discussion by the ladies.

Several visitors were present and helped to make the afternoon a pleasant one.

The hostess, assisted by Mrs. Hardena Millbank served cake and cocoa and the balance of the afternoon was spent in pleasant conversation.

PROGRAM PARTY—SUPPER  
French Home Scene of Enjoyable and Unique Function Yesterday Afternoon

Mrs. C. E. French and her daughter, Miss Ethel French, yesterday afternoon entertained with a delightful and unique program party and supper. The invitations to this function had requested each guest to be prepared with something with which to entertain the company. The result was all that could be desired, every one contributing to a program that was unusually enjoyable. There were readings and recitations, anecdotes and music, one of the most charming features of the latter being a solo beautifully sung by Mrs. Ella I. Fyfe.

For the supper served later, pink roses, nodding from a basket and reflected by a mirror base, made an exquisite centerpiece which was completed with bows of pink tulle. At either end of the table were friezes in vases adorned with the filmy tulle. Covers were laid for the hostesses and Mesdames Ella Fyfe, J. E. Liebigs, Laura Gilbert, Harry Gilbert, J. G. Bailey, Fannie Wares, J. H. Walker, E. E. Paul, Grace Wright, O. C. Edge, E. G. Holmes, J. Stewart, P. C. Wedell, J. W. Tubbs, W. S. Peek, E. B. Burns, Misses Waugh, Mary Talbot, Alice Curtis, Mary Taylor, Alice Wares.

Neighborhood Club  
The Neighborhood Club was entertained yesterday afternoon by Mrs. H. Machander at her home on East Santa Clara avenue. A color scheme of yellow was carried out in both decorations and refreshments, the latter consisting of salads, sandwiches, chocolate and delicious home-made candy. Games and music passed the hours of the afternoon most pleasantly while the ladies varied the program by working over their embroidery and dainty sewing. The next meeting of the club will be held with Mrs. A. H. Theal, 1150 East Santa Clara.

The ladies present yesterday besides the hostess were Mesdames Pulver, Sexlinger, Roy Pollock, William Hoefer, Chas. Davis, A. H. Theal, F. Schroeder, A. Schildmeyer, Garlock, Hemet, T. Groat of Orange, J. W. Broomfield, Miss Schroeder, Margaret Romer, Hester Sexlinger and Nelda Machander were the winsome girls who served refreshments.

Students' Recital  
The pupils of C. A. Gustlin, manager of the Orange County Conservatory of Music, will appear in a recital tomorrow afternoon at 4:15 o'clock at the Conservatory. The patrons and friends of the Conservatory are invited to attend this interesting recital.

Interesting Meeting of Circle  
The very pleasant meeting of the Amphion Circle was held yesterday afternoon at the home of Mr. and Mrs. E. J. Eaton, 144 West Seventeenth street. A goodly number of the members of this enterprising society of the First Congregational church were present, and an animated discussion of some rather ambitious plans was held over the pretty fancy work that kept fair fingers busy. An outline for the next meeting of the Circle was also an interesting topic.

After a most satisfactory and animated meeting, the hostess, Mrs. Lewis Ewing, who was entertaining the Circle at her mother's home, served appetizing doughnuts and hot coffee.

Baby Show Tomorrow  
Tomorrow (Saturday) afternoon at 3 o'clock at the Intermediate High School building on North Main street, will be held the McKinley Parent-Teacher's Association Baby Show. The awards will be read by Mrs. F. H. McElree and it is urged that all mothers who have their babies entered may be there at that time.

There will be no admission charged and all are most cordially invited to attend and see the handsome lot of youngsters that our fair city can boast of.

Mila Tupper Maynard Coming  
Mrs. C. H. Wilson was hosting to the Woman's Committee yesterday afternoon at her home, 1126 West Pine street. The meeting was opened with a solo by Mrs. Hardena Millbank. Mrs. C. H. Wilson then read a poem by Berton Bralley entitled "A Creed." This was followed by the usual routine of business during which it was decided to have Mrs. Mila Tupper Maynard deliver a lecture in this city on Thursday evening, March 19th, on the subject "The Self-Supporting Woman." Mrs. E. J. Barnes then read a paper on "Why Are We Here, and What Are We Here For?" which was followed by a discussion by the ladies.

Several visitors were present and helped to make the afternoon a pleasant one.

The hostess, assisted by Mrs. Hardena Millbank served cake and cocoa and the balance of the afternoon was spent in pleasant conversation.

FOR BOY'S HAND  
SETTLES FOR  
\$500

Father of Samuel Barker, In-  
jured at High School,  
Receives Cash

COMPROMISE MADE  
AND WARRANT PAID

Student, Aged 19, Had Member  
Cut Off by Circular Saw  
Recently

"The Santa Ana High School Board  
to W. D. Barker to settlement and com-  
promise for injuries received by Sam-  
uel D. Barker, his minor son, for loss  
of left hand in Santa Ana High School  
building by circular saw. Settlement  
in full of claim, \$500."

The above notation is attached to a  
warrant for \$500 passed by the Santa  
Ana Board of Education. Yesterday  
afternoon W. D. Barker, father of Sam-  
uel, drew the warrant at the office of  
County Auditor Lester and cashed it  
at the office of County Treasurer Jos-  
lin.

Samuel Barker, aged 19, was a stu-  
dent in the manual training depart-  
ment at the Polytechnic High School.  
He was assisting Albert M. Shaw,  
head of the manual training depart-  
ment, when the accident occurred.  
The two were adjusting a set-screw  
in a piece of machinery close to a cir-  
cular saw. Young Barker did not no-  
tice that the saw was in motion and  
forgot that it was there. In an in-  
stant his hand was caught in the saw  
and was cut through the palm. Am-  
putation in front of the wrist was  
found necessary.

W. D. Barker consulted an attorney  
and presented a claim to the school  
board. City Attorney Heathman ad-

vised the board to settle by paying  
\$500.

BANDITS SCOOP AMALGAM  
WORTH \$4500 INTO SACKS

GRASS VALLEY, Cal., Feb. 27.—  
Compelling the two custodians of the  
North Star mine's cyanide plant, near  
here, to break open the presses con-  
taining gold precipitates, masked band-  
its scooped into sacks amalgam  
worth \$4500 and escaped. The number  
of the outlaws was not ascertained  
by the excited miners. All flourished  
guns.

RIVERSIDE ROSE PLANTING  
SELLS 5000 ROSE BUSHES

RIVERSIDE, Feb. 27.—From all  
sections of the city came enthusias-  
tic residents—men, women and young  
tribulation of roses being started by  
the rose branch of the city beautifi-  
cation committee. Five thousand  
rose-bushes, of eight varieties, were  
ready for distribution, and demands,  
at 10 cents apiece, were made by  
many who are eager to fall into line  
in the work of the committee in  
beautifying homes and private park-  
ings.

PHILIP KILFOIL ASKS  
EXHUMING OF SISTER

LOS ANGELES, Feb. 27.—Philip Kil-  
foil, held in jail on a statutory charge  
against Lillian Palmer, aged 14, today  
defied the authorities to connect him  
in any way with the death of his sis-  
ter, Lucy Kilfoil, who died of arsenic  
poisoning. He expressed a wish that  
they would exhumate the body if that  
would aid the investigation in any  
way. He declared he wanted suspi-  
cion removed from him once for all.

—Dr. A. J. Fay will be at the El-  
wood Apartments, West Fourth street,  
Monday, March 2, from 9 a. m. to 3  
p. m.

Mr. Fay cures all chronic diseases  
such as catarrh, asthma, rheumatism,  
goiter, deafness, eyes, pimples on the  
face (weakness of man), drink habit  
and many others. If you have a chron-  
ic disease and want to be cured, it  
will pay you to see him Monday while  
he is here. Best city reference. Con-  
sultation free.

Something good: Mackerel, 2 for  
15c; boneless herring, 25c pound. Tele-  
phone 78 and boy will deliver. M. J.  
Bundy, Corner Fourth and Ross.

Next Saturday Candy Special at  
Taylor's, Peanut Brittle, at 20c.

AT THE COURTHOUSE  
VERDICT \$250  
FOR DE HETRE

Man Hurt in Garage Sued  
for \$20,000, Got One-  
eightieth of It

W. H. De Hetre sued J. J. Graham  
& Son of Huntington Beach and got  
judgment for \$250. After hearing  
the evidence in the case, the jury  
yesterday brought in its verdict giv-  
ing De Hetre but a small fraction of  
the amount he had sued for.

De Hetre was repairing an automo-  
bile in the Graham Garage when an-  
other employee ran into him with an  
automobile. The other employee's  
foot had slipped off the pedal of the  
brake. The defendants are thorough-  
ly satisfied with the judgment and are  
ready to pay it now, but the plain-  
tiff may appeal. Handy and  
Bishop represented De Hetre and the  
Grahams were represented by R.  
Y. Williams and H. C. Head.

Ask Abandonment

J. C. Ord and others have petitioned  
the supervisors to abandon the por-  
tion of a county road at Anaheim  
Landing between the P. E. and the  
Ocean.

Marriage Licenses  
Merle S. Collins, 19, and Irene A.  
McDowell, 16, both of Anaheim; Wil-  
liam O. Hess, 24, and Edna M. Freed,  
19, both of Santa Ana.

Foreclosure Case

Rebecca A. Thomas has brought  
suit to foreclose a mortgage of \$2300  
on five acres of land owned by  
Charles H. Pahl. P. F. Backus is  
attorney for the plaintiff.

Interlocutory Decree  
An interlocutory decree of divorce  
has been granted Hannah R. Hancock  
against H. B. Hancock. W. F. Heath-  
man represents Mrs. Hancock.

Articles Filed

Attorney Steele Finley today filed  
articles of incorporation of the Dean  
Corporation, sewing machine house of  
Santa Ana. The directors are J. W.  
J. R. and Addie J. Dean. Of the \$15,  
000 capital stock \$4,000 is subscribed.

Set for Trial

The trial of Francisco Gauna of El  
Modena, charged with assault with a  
deadly weapon with intent to murder,  
has been set for trial on March 26.

NEWSPAPER MEN  
MUST GIVE SOURCE  
OF INFORMATION

NEW YORK, Feb. 27.—Newspaper-  
men who get advance grand jury in-  
formation must tell the source of in-  
formation when asked by the courts  
or pay a heavy fine, according to a  
ruling made today by Federal Judge  
Hand.

The case was that of former City  
Editor George Burdick of the New  
York Tribune and William Curtin, a  
reporter, who knew what the grand  
jury expected to do in the recent  
smuggling cases, but who refused to  
tell Judge Hand where they got their  
information. They were fined \$500  
each.

Feel Miserable?  
Out of sorts, depressed, pain in the back  
—Electric Bitters renews your health and  
strength. A guaranteed Liver and Kidney  
remedy. Money back if not satisfied. It  
completely cured Robert Madison, of West  
Burlington, Iowa, who suffered from viru-  
lent liver trouble for eight months. After  
four doctors gave him up he took Electric  
Bitters and is now a well man. Get a bot-  
tle today; it will do the same for you.  
Keep in the house for all liver and kidney  
complaints. Perfectly safe and dependa-  
ble. Its results will surprise you.  
50c and \$1.00. H. E. Bucklen & Co.  
Philadelphia or St. Louis.—Advertisement.

TAFT URGES COURT REFORM  
WASHINGTON, Feb. 27.—Former  
President Taft was expected to ap-  
pear before the House judiciary com-  
mittee to advocate a bill to effect re-  
form in federal court procedure. The  
measure, introduced by Representa-  
tive Clayton, would empower the Su-  
preme Court to regulate the pleading  
procedure and practice on the com-  
mon law side of the federal courts.

Correctly fitting glasses are made  
by Dr. Loersch, 116 East Fourth.

Our Satisfied  
Spring and  
Mattress  
Customers  
Are Our  
Greatest  
Advertisement

\$3.50 and \$4.00, but our Special Steel Coil  
Wire Springs at \$4.50 up are guaranteed to  
give satisfaction.

We are now showing everything you could wish for in Springs and Mattresses, at almost any price you may  
wish to pay.

Horton-Spurgeon Furniture Co.

COR. FOURTH AND SPURGEON STS.

SANTA ANA, CAL.

COUNTY SECRETARY OF  
Y. M. C. A. HAMILTON  
GOING TO WHITTIER

Man Who Has Been at Head of  
Work Here for Two Years  
is Leaving

His Position Here is Offered to  
E. M. Brown, Now of  
Baker, Oregon

R. J. Hamilton, who has been sec-  
retary of the Orange County Y.M.C.A.  
organization for nearly two and  
a half years, has resigned his po-  
sition to become Y.M.C.A. secretary at  
Whittier. His resignation has been  
accepted to take effect about April 1.  
The executive board of the County  
Y.M.C.A. here has offered the secre-  
taryship here to E. M. Brown of  
Baker, Ore. Brown is highly recom-  
mended as a Y.M.C.A. leader. While  
it is believed that he will accept the  
position, the matter has not been  
finally determined.

In announcing Hamilton's appoint-  
ment at Whittier, a Whittier paper  
says:  
Last night the board of directors  
of the Young People's Christian As-  
sociation of Whittier met and elect-  
ed as their secretary Mr. Robert J.  
Hamilton, who is now secretary of  
the Orange County Y.M.C.A. Mr.  
Hamilton has resigned from his po-  
sition in the adjoining county, but the  
exact date of his transfer has not  
been arranged as yet, but it will per-  
haps be early in April.

For the past two years and a quar-  
ter, Mr. Hamilton has been acting as  
secretary in Orange county, where  
he has made a good record and has  
given complete satisfaction. He has  
done the all-round work for which  
the association stands everywhere it  
goes. His work along all lines seems  
to have been well adapted to meet  
the needs of the boys and young men  
of the county. He has been espe-  
cially strong on the matter of co-  
operation with the church and Sun-  
day school and the public schools. In  
this work with the Sunday schools he  
has been acting as county superin-  
tendent of the "Teen Age Division"  
and secretary of the Santa Ana Dis-  
trict Sunday School Association.

He has spoken at a number of Sun-  
day school conventions, both state  
and county, and has the reputation of  
being a good worker along these  
lines.

In co-operation with the public  
schools he has promoted an anti-cig-  
arette movement with many good  
features under the name of "The Or-  
ange County Triangle League." In  
this work he conducted the largest  
track and field meet ever held in Or-  
ange county, having 325 boys and  
100 girls participating. This league  
also conducts spelling, elocutionary  
and penmanship contests. He has al-  
so been interested in promoting base-  
ball leagues, basketball tournaments,  
track meets, etc., among the older  
boys and young men. During the  
time he has been in Y.M.C.A. work  
he has been connected with eight  
boys' camps during the summers, and  
this is considered one of the strong-  
est features in boys' work. During  
this year he has been helping the  
Santa Ana Y.M.C.A. conduct a lecture  
and entertainment course which has  
given splendid satisfaction among  
the people of Santa Ana.

Before coming to California, Mr.  
Hamilton was director of boys' work

in the Young Men's Christian Asso-  
ciation of Oak Park, Illinois, which  
had a membership of nearly four hun-  
dred boys and six hundred men. Mr.  
Hamilton is a graduate of Northwest-  
ern University and has had four  
years' experience as a teacher in the  
grammar schools and high schools of  
Indiana and Illinois.

Mr. Hamilton, when he begins his  
work here will have the heartiest  
support and co-operation of all in any  
efforts to make it easier for the boys  
and young men to do right and hard-  
er for them to do wrong.

Mr. Hamilton has promised to send  
to the News at an early date an ar-  
ticle about the Association work and  
the general plan of work for this  
community.

TAFT LUNCHEONS WITH PRES.  
WILSON AT WHITE HOUSE

WASHINGTON, Feb. 27.—Former  
President W. H. Taft lunched with  
President Wilson at the White House  
today. This is the first time since  
Benjamin Harrison was in office that  
a president and his predecessor have  
come together there.

Take a stenotypy course at the  
Orange County Business College.

FOLK QUILTS \$5000 JOB  
FOR \$10,000 POSITION

WASHINGTON, Feb. 27.—Joseph  
Folk resigned the solicitorship in the  
state department today to become  
chief counsel for the Interstate Com-  
merce Commission. The resignation  
will become effective tomorrow. The  
old position carried \$5000 annually;  
the new one carries \$10,000.

OBJECT TO PROGRAM ADS

PARIS, Feb. 27.—A boycott against  
using programs in the theaters has  
been proposed here on account of the  
steadily increasing price of the book-  
lets, which sell anywhere from eight  
to forty cents, motion pictures sell-  
ing them for six. It is contended  
that the programs are so bulky from  
paid advertisements that the spec-  
tator, after paying twenty cents for  
the information is put to great pains  
to find out what he seeks.

If you bought it at Taylor's you got  
the best we could buy, and it was put  
up clean. For instance, those waffles  
and hot cakes at breakfast and that  
Special at noon. If you had sandwich  
and coffee they were made after you  
ordered them.

Santa Ana Painless Dentists, 102 1/2  
East Fourth St. Main 253.

NATION'S UNEMPLOYMENT  
CONFERENCE OPENS

NEW YORK, Feb. 27.—That there is  
no greater percentage of unemployed  
persons in the United States today  
than the percentage according to pop-  
ulation four years ago, but that the  
federal government and state govern-  
ments should combine to alleviate  
present conditions, were the themes  
of speeches made here today at the  
opening sessions of the National con-  
ference of Unemployment and the  
American Association for Labor Legis-  
lation. Today's big feature will be a  
joint meeting in Cooper Union with  
the People's Institute. Mayor John  
Purroy Mitchell opened the conference  
this morning in city hall. Scores of  
delegates appointed by governors in-  
cluded mayors of big industrial cities  
and state and municipal officials.

Reports regarding the number of  
persons out of employment in hun-  
dreds of towns and cities throughout  
the United States were to be read to-  
day. The sessions will continue to-  
morrow.

Take a stenotypy course at the  
Orange County Business College.

Next Saturday Candy Special at  
Taylor's, Peanut Brittle, at 20c.

For a Good Night's Rest  
You Must Have a Comfortable Bed

Our Mattress and Bed Spring department occupies a very large section of our  
basement and is now completely stocked with the best line of these goods  
ever shown in Santa Ana.

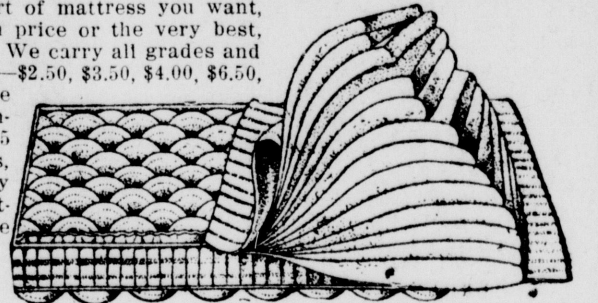

Try a Dreamland Mattress and a Steel Wire Coil Bed

Spring Thirty Days Free

The Best \$10.75 Mattress Made

OUR DREAMLAND COTTON FELT  
MATTRESS IS BUILT LAYER UPON  
LAYER—THEY NEVER STRETCH NOR  
SAG—ALWAYS SMOOTH AND FLUFFY.

No matter what sort of mattress you want,  
either the lowest in price or the very best,  
we can supply you. We carry all grades and  
sizes to fit your bed—\$2.50, \$3.50, \$4.00, \$6.50,  
\$8.00 and \$10.75. We especially recom-  
mend our \$10.75  
Dreamland mattress,  
which is positively  
the best felt mat-  
tress made for the  
money.

We have "Never Stretch" Mattresses as low as \$6.50.

We are now showing everything you could wish for in Springs and Mattresses, at almost any price you may  
wish to pay.

Prepare for Spring

Now is the time to start your garden and get your front lawn in  
shape for the first call of mother earth. With our splendid new stocks  
we are better prepared than ever before to supply the demand for  
good lawn and garden tools. We have a large stock of goods for you  
to choose from and the various lawn and garden tools listed below are  
merely suggestions. We have others, lots of them, and a personal  
visit our store will be well worth your while.

Lawn Mowers, Grass Hooks, Grass Shears, Garden Weedeers, Gar-  
den Forks, Garden Trowels, Rakes, Hoes, Spades, Shovels, etc.

### TAYLOR CANNERY IMPROVES ITS PLANT

Immense Ice Storage Building  
Largest South of Los  
Angeles

TO HOLD 2000 TONS  
CONGEALED MOISTURE

Greater Cleanliness, Economy  
of Production in the  
Cannery

As has been the custom every winter since its inception the firm of J. E. Taylor & Company is making extensive changes and improvements in its rapidly growing cannery on East Fourth street, this city. The most imposing addition to the plant in point of size is a new ice storage plant which will have a capacity of 2000 tons. In order to supply this building with sufficient ice to meet the demands of the coming summer it has been found necessary to install a new 12-ton ice plant in addition to the 10-ton plant which has been in use for the past three years. The new ice storing structure is the largest south of Los Angeles. Its installation makes another ice famine like the one last summer practically impossible. The Taylors have abandoned the Santa Ana retail field entirely and will sell, from now on, their ice in wholesale lots only.

It is in the cannery itself that the greatest alterations have been made. Here, by doing away with numerous benches and tables, it has been found that double the amount of fruit can be peeled, cooked and preserved in just about one-half the room formerly required. A new wrinkle in the canning department is this: There will be no boxes whatever in the peeling room, all the fruit being conveyed to the girls by means of endless belts.

The manager of the company, Mr. Fred Taylor, is always on the lookout for ideas that will make for greater cleanliness. Accordingly the racks at which the peelers will sit in their comfortable chairs have been provided with individual copper sinks, into which the fruit drops from the conveyers. The only time the fruit is touched by the peelers' fingers, after it leaves cold storage, is when it is being peeled. After this other conveying belts take the fruit, in copper pans, about 6x8 inches square, into steam-heated cooking boxes. When the pans leave these boxes the fruit is put into the cans by means of forks. The cans themselves are capped by machinery, without the use of the old-time solder.

The peeling room will employ 140 girls. In other departments of the cannery about 25 additional girls will be needed. Add to these the list of men necessary for the running of the plant and it will readily be seen that J. E. Taylor & Company's cannery is a tremendous inducement for employment-seeking people to locate in Santa Ana.

An incinerator is being put in place, which, when finished, will do much toward speed and economy of production. This incinerator will take care of all peelings and refuse. It will be kept heated to such a degree as to burn up everything that comes within reach of its capacious maw, tin cans, etc., not excepted.

Whether the output of canned fruit will this year be below or far ahead of last year depends entirely on weather conditions in the East. If the eastern fruit is plentiful people will naturally put up large quantities in their own kitchens. On the other hand, should the fruit crop be meager, sales for the local cannery will increase in proportion. The Taylors

A REDWOOD TREE IN FRONT OF THE RESIDENCE OF  
J. A. TIMMONS ON NORTH MAIN STREET

hope to get orders enough this season to make about thirty carloads of fruit. If this number is shipped out all previous records for shipments of canned fruits will of course be broken.

The cannery's relation to local railroading conditions is not an insignificant one. Two years ago when Pacific Electric officials were here getting data it was found that Taylor's Cannery had received and sent out seventy-six carloads. Based on an estimate of the way the cannery is going ahead it is safe to say that somewhere in the neighborhood of 100 carloads will go out from and come into Santa Ana this year.

### BUILDING PERMITS ISSUED THIS WEEK

To Fred Watkins, with R. M. Wallace as contractor—Garage at 850 Par-ton street; \$40.

To Preble and McNeill, with Geo. E. Preble as contractor—Six-room dwelling at 1902 Valencia street; \$1600.

To Alexander Girard—Four-room dwelling and small barn at 728 South Flower street; \$500.

To Mrs. T. J. Roberts, with S. G. Newman as contractor—One-room dwelling at 832 Riverine avenue; \$175.

### THIS YEAR IS GOING TO BE RECORD-BREAKER

Santa Ana Bulletin: We don't believe conditions were ever more favorable for Orange county than they are this year, and crops of all kinds should prove to be record breakers. We have had the rains, and they have been of the warm, growing kind, and so just keep your eyes on Orange county, the richest little spot in the world. We are the home of oranges, lemons, English walnuts, olives, apricots, in fact fruits and berries of all kinds, and truck gardening all the year around. We also have our thousands of acres of grain, beans and sugar beets, the latter supplying five factories in this county; and we must not overlook our dairy interests, as well as the extraordinarily rich oil fields in our territory. Can you show us another spot with as many diversified products as this county possesses? It can't be done, and you know old saying, "Seems to be believing."

### TWIST RESIDENCE WILL BE FINISHED IN THREE MONTHS

Although, owing to the rains, there has been but three weeks' actual work done on the residence of A. C. Twist, on North Broadway, north of Tenth, progress has been very rapid on this structure that is to be one of the most handsome of Santa Ana's dwellings.

There are two features in this residence not usually found in private dwellings, namely the conservatory and the billiard room. These are on the south and northwest corners, respectively. One notable characteristic of the rooms of this house is that they are extremely well lighted. Notwithstanding that there are nine rooms on the ground floor and three in the attic the residence has been so well planned that there will never be a lack of sunlight and fresh air.

There will be beam ceilings for the rooms downstairs. Stained Oregon pine predominates in the woodwork, while the upstairs rooms will be in white cedar and enameled. The floors will be of oak.

A new item in the details of this building is that all the windows will have roller screens instead of the usual rigid ones. These screens will roll up inside of the frames.

George Preble, the contractor, has six men at work. The home will be ready for occupancy in about three months.

### HAWKEYE PICNIC TO BE HELD MARCH 7TH

Orange county always sends up a big delegation of the best of Hawkeyes to the Iowa picnic. The park commissioners have refused to loan the use of the park for Feb. 28, so the picnic will be held on Saturday, March 7, at Eastlake Park, Los Angeles. If rainy that date, the 14th will be taken. The general plans for the picnic will be carried out as advertised. There will be county and college headquarters with the registrations so friends may meet one another. A picnic dinner will be enjoyed at noon, followed by the program.

Take a stenotypy course at the Orange County Business College.

### TO SINK WELLS IN NEW OIL DISTRICT

Pittsburg Millionaire Going to  
Get Into Orange County  
Field

BUENA PARK, Feb. 27.—J. Frank Murray, millionaire oil magnate of Pittsburg, arrived from that city yesterday. Mr. Murray comes with the intention of financing a string of wells which will be sunk in and around Buena Park. Thoroughly aroused to the fact that Buena Park will be the next big oil producer, since the developments made by the Standard have proven that lands, heretofore valued for agricultural purposes, are veritable mines of wealth, this pretty little hamlet has sprung from comparative obscurity into prominence.

Construction work on the American Petroleum leases north of the Park commenced the first of the week. This property is owned by Charles McComber and immediately adjoins the Emery lease held by the Standard. E. H. Doherty is president on the American Petroleum directorate.

### HILL & SON MAKE IMPROVEMENTS

Extensive changes are being made in the plumbing and tinning departments of Hill & Son. Over \$1000 is being expended in putting in new pipe, tin and fitting racks. One of the greatest advantages due to the changes is the increased economy of production made possible by the dividing of the tin and plumbing shops. In the past workmen in these departments were constantly interfering with one another. A concrete floor has been put in, as well as a car track. This latter will do much to expedite the handling of heavy material.

In the past four months Hill & Son have gone into the cornice-making field. There are a number of cornice makers now in the firm's employ and this kind of work can be turned out rapidly and satisfactorily. No better indication of the prosperous condition of building in Santa Ana could be asked than that this firm has taken over a dozen new contracts in the past week. Mr. Hill says that this is bound to be a record-breaking year in building. That he really believes this is evidenced by the fact that his racks are now loaded with more than a carload of water pipe and more than twenty-five tons of galvanized tin.

### BIG CROPS WILL OFFSET ALL LOSS

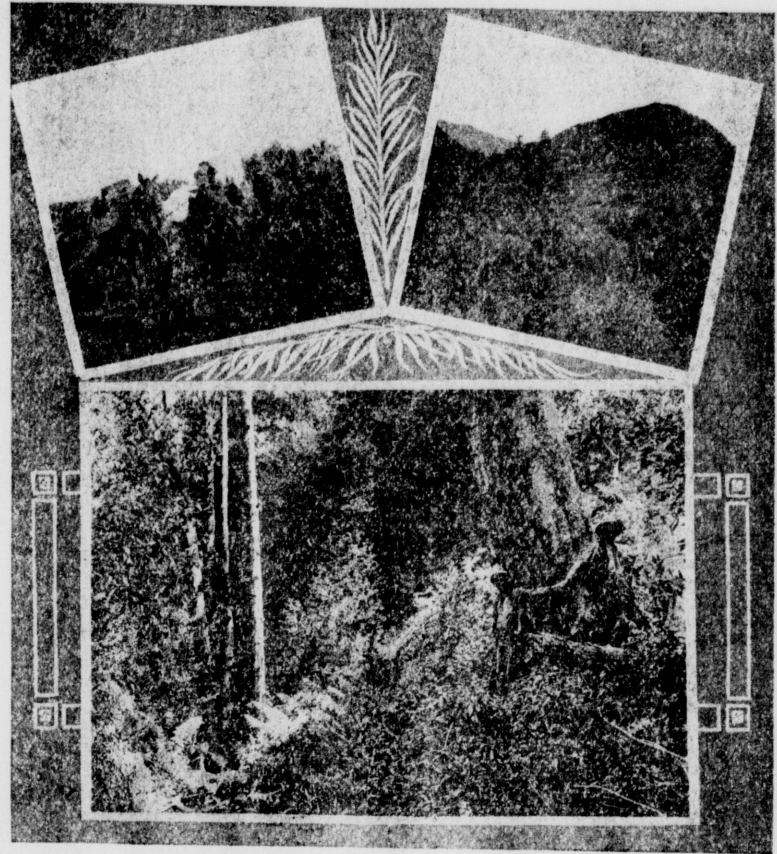

Flood Losses Will Be Outmeasured Several Times by Bumper Yield, Says S. P. Head

NEW YORK, Feb. 27.—Chairman Julius Kruttschnitt of the Southern Pacific said it would be impossible to make any estimate of the damage done to the flooded section of California for a few days.

"We do not feel gloomy over the outlook," said Mr. Kruttschnitt, "for any man who has ever lived in California always smiles when the rains fall, as he realizes that beneficial results are in store for him. Therefore, although the damage may have been large in some places as a result of the flood, the great crops that will follow the rains in the valleys and snow in the mountains will undoubtedly repay several times over the losses sustained at this time.

"The large crops that undoubtedly

SCENES IN THE SANTA ANA MOUNTAINS, IN WHICH  
EXTENSIVE TRAILS AND FIRE BREAKS ARE TO  
BE BUILT BY THE FOREST SERVICE

### WILL BUILD TRAILS AND FIRE BREAKS TO PROTECT THE SANTA ANA WATERSHED

Forest Officials Will Spend a Good Deal  
of Money in the Mountains to  
the East

Steps have been decided upon by the forest service toward building a system of trails and fire-breaks in the Santa Ana mountains for the purpose of securing better protection for the watershed against fire.

Today Forest Supervisor C. W. Wynne of San Diego, head of the Cleveland National Forest, is at El Toro with Forest Ranger J. B. Stephenson for the purpose of going over a part of the Trabuco division of the forest and making himself acquainted with the things that ought to be done to give the mountains an adequate protection, such as it is proposed shall be given.

Yesterday Wynne was in Santa Ana with L. A. Barrett, formerly of Santa Ana, now assistant district forester of California and Nevada, and one of the leading forest service men of the Pacific coast. Barrett is very anxious to provide the trails and fire-breaks as soon as possible. Wynne appears to be a live wire. He is thoroughly up-to-date in forest matters, and has taken hold of the project in the local mountains with enthusiasm.

Barrett and Wynne stated that the forest service will spend a share of its available development money in the next year or two in the Santa Ana mountains. It is proposed to cut fire-breaks along the top of the range and along the principal ridge, so that should a fire start it can be confined. The mountains are exceedingly rough, and a good many trails will have to be built.

"Between now and the end of this fiscal year," said Barrett, "about \$1000 will be spent in extending and bettering the present telephone lines. At present the forest service has a line reaching from El Toro to the top of Old Saddleback and down on the other side.

"As to protection from fires in the mountains, we want to get the Santa Ana mountains into as good shape as the mountains back of Azusa. The forest service is going to devote its attention to those portions of the mountains where the watershed is of real value. The Santa Ana watershed is of great importance to this section. The Santiago creek draws all of its water from the Santa Ana mountains, and it is of vital interest to those who depend upon that creek for irrigation water to have the brush and trees on the watershed retained. For some time to come we are going to devote particular attention to the work in the Santa Ana mountains."

L. A. Barrett is a brother of George and Arthur Barrett, the former of whom is living in Santa Ana at the present time. Lou, as he is popularly known, has attained a high position in the forest service since leaving Santa Ana in 1899. At that time he went to the Philippines as first sergeant in the regular army. He has visited here occasionally since then.

will follow will mean additional tonnage for the Southern Pacific, otherwise we might not be inclined to take the matter so philosophically."

**A Winter Cough**  
A stubborn, annoying, depressing cough hangs on, racks the body, weakens the lungs, and often leads to serious results. The first dose of Dr. King's New Discovery gives relief. Henry D. Sanders, of Cavendish, Vt., was threatened with consumption, after having pneumonia. He writes: "Dr. King's New Discovery ought to be in every family; it is certainly the best of all medicines for coughs, colds or lung trouble." Good for children's coughs. Money back if not satisfied. Price 50c. and \$1.00. At all druggists. H. E. Bucklen & Co., Philadelphia or St. Louis—Advertisement.

### TENNESSEE WILL HAVE \$50,000 FAIR BUILDING

NASHVILLE, Tenn., Feb. 27.—With today's visit of Commissioner C. S. Scott of the Panama-Pacific Exposition to Nashville it was settled that Tennessee will have a \$50,000 building at San Francisco in 1915. Chattanooga and Knoxville guaranteed half of the amount and the Nashville Commercial Club added another fourth yesterday afternoon, leaving Memphis to subscribe a like amount, which it is quite certain will be done.

### MAY BE READY FOR EASTER SERVICE

Work on Handsome First Baptist Church Being Rushed to Completion

SEATS LEAVE GRAND RAPIDS MARCH FIRST

Rev. Russell to Preach Dedication Sermon in New Church  
Second Sunday in May

Santa Ana's latest and most imposing house of worship, the First Baptist church, at the corner of Main and Church streets, is rapidly nearing completion under the able supervision of the contractors. The lines and general proportions of this building are so artistic and have such an effect of solidity and massiveness that the eyes of passers-by are invariably drawn to them. To Frederick K. Eley belongs the credit for the splendid architecture.

The lumber and mill work is being done by Contractor A. E. Bird by the S. H. Pendleton Company, which has been delivering some of the finest grained woods ever obtained for any building in this city. Other sub-contracts have been let to the following: Gilbert Bates, excavations and foundation work; Ramsey & Son, plastering; J. W. Shields, painting; Los Angeles Art Glass Co., art glass; Hill & Son, plumbing, roofing and galvanized iron work; Santa Ana Artificial Stone Co., artificial stone; Robertson & Packard, electrical work; Weber & Co., seats; A. J. Zinnerle, heating plant. It has been decided to install a vacuum cleaning plant but the contract for this has not been let.

It is hoped to have the church ready for occupancy by the first of April. It is largely a matter of when the seats arrive from the east. Mr. Stewart, the Los Angeles salesman for Weber & Company, states that the seats will leave Grand Rapids on the first of March. After that, if the railroads are at all prompt in their delivery the seats should be here on time.

It was definitely decided last night to hold the dedication service on the second Sunday in May, as the church is absolutely certain to be completed by that time. The deacons have asked Rev. Otto S. Russell to preach the dedicatory sermon.

It is highly possible if all goes smoothly that services will be held in the new church on Easter Sunday.

### SERIOUS CATARRH YIELDS TO HYOMEL

You Breathe It

Be wise in time and use Hyomel at the first symptom of catarrh, such as frequent head colds, constant sniffing, raising of mucus, or droppings in the throat. Do not let the disease become deep-seated and you are in danger of a serious if not fatal ailment.

There is no other treatment for catarrh, head colds, etc., like the Hyomel method, none just as good, so easy and pleasant to use, or that gives such quick, sure, and lasting relief. You breathe it—no stomach dosing. Rowley Drug Co. will refund your money if you are not benefited. Try Hyomel at once and see how quickly it clears the head, stops the sniffing, and banishes catarrh. Hyomel helps you to enjoy good health. All druggists sell it. Ask for the complete outfit—\$1.00.—Advertisement.

Jimmie—Ma, if a man kills another is he always put in jail for it?

Ma—Not always, Jimmie. Sometimes he is paid for doing it by the government; and if he can only kill enough, he will have monuments erected to commemorate him.

# A Lecture On Christian Science

## ITS RELIGIOUS AND HEALING ELEMENTS

By Bliss Knapp, C.S.B., Member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

A large audience assembled last night at the Grand Opera House to hear the eminent lecturer Bliss Knapp, C. S. B., speak on Christian Science. The lecture was a most able and convincing one, and is printed here in full.

J. Clyde Horton, in introducing the lecturer, spoke as follows:

"You are here tonight to hear more of Christian Science. You, perhaps, know of some one who has been healed, or you, yourselves, may have been healed of some so-called incurable disease, or lifted out of the gutter of sin, poverty or discouragement, by this teaching.

"The world, today, is seeking a Saviour, but it rightly demands a demonstrable proof; but this proof must be more than theory. Everywhere we hear testimonials of gratitude for the healing that is taking place all over the world.

"Christian Science is a demonstrable science; it proves its own teaching, under the most rigid investigation. Christian Science is proving Jesus' teachings, and obeying His commands, by healing the sick and sinning today, as did His disciples, two thousand years ago.

"Mrs. Eddy, the founder of this science, very wisely established a Board of Lectureship, whose duty it is to correct erroneous impressions that sometimes arise.

"I take pleasure in introducing to you Bliss Knapp, C. S. B., of Brookline, Mass., member of the Board of Lectureship of the mother church, who will speak to you on this subject.

Mr. Knapp said:

Not in contravention of law, but in fulfillment thereof, did the man of Galilee announce himself and forthwith present the only perfect system of healing known to humanity—a system which no one can improve, but one that should be understood by all. The method employed was by mental or spiritual prayer. Consequently the only perfect system of healing must be mental and in fulfillment of law. The mission of Christian Science has been to present the meaning or explanation of the Christ law with such comprehensive simplicity as to effect a return of Christian healing.

In all that Jesus did, He made it clear that the power He employed was not of Himself. He specifically declared, "I can do nothing of myself, but what I see the Father do." His ability, therefore, to obliterate disease and sin was the result of what He actually knew about God, the Father of us all. When He taught that same understanding of God to His disciples, they were able to perpetuate His healing ministry. Indeed, Christian healing was continued for a period of three hundred years after the time of Jesus. The ability of a Christian Scientist to heal the sick and sinning through prayer is wholly due to a better understanding of God, who is the divine principle of man's existence. This is in agreement with the scriptural command, "Acquaint now thyself with him, and be at peace." One who is sick is not at peace. One who is distressed either in mind or body is not at peace. Nevertheless, acquaintance with the divine nature endows one with that peculiar intelligence which inspires him with the power of peace, and thereby rules out all disturbance, whether mental or physical. Therein do you have presented in the briefest possible statement the precise method of Christian healing—acquaintance with divine nature. How then shall we ac-

quaint ourselves with God?

Divine Acquaintance

One of the earliest ways of gaining an insight into the realm of God was given by Moses in the ten commandments. He led people to think of the divine nature as manifested not through a form but through well defined laws. Idolatry had its origin in thinking of God as a form. When men undertook to fashion what they might conceive the precise form of God to be they became thereby idolaters, against whom we have the second commandment of the decalogue. As divine principle, manifesting His power, intelligence and loving-kindness through well defined laws, He can be understood.

Jesus declared His relationship to this same law in His Sermon on the Mount, for there He said: "Think not that I am come to destroy the law, or the prophets; I am come not to destroy, but to fulfill." Having said this, He undertook to teach this law, not so much intellectually, as by a direct appeal to one's moral or spiritual nature. Not that intellectual training should be dispensed; for, on the contrary, the right sort of training is necessary to the proper conduct of everyday affairs. But the one thing of special importance in this connection is the fact that Jesus addressed himself, not so much to the intellects of the disciples as He did to their spiritual faculties; to their natural tenderness and spiritual aspirations. He recognized that one who has never enjoyed the advantages of an education may have spiritual faculties as well developed, if not outshining those of a student.

This is evidenced in a little child. He has not had time to develop his intellect. Nevertheless he has well developed spiritual faculties. By addressing himself to one's spiritual faculties the gentle Nazarene was able to impart to humble fishermen the actual understanding of divine law—an understanding that endowed them with the power of divinity to heal sickness and sin. Herein do we observe an understanding that is wholly apart from the human intellect—an understanding to which Job referred when he said, "There is a spirit in man; and the inspiration of the Almighty giveth them understanding." It is the spiritual understanding which we gain through the exercise of the spiritual faculties in prayer that acquaints us with the nature of God, and endows us with the power of peace unto healing and salvation.

Right Desires

If an individual is made to believe that he has no faculty for apprehending spiritual law, he is cheered in Christian Science by the sweet assurance that men are natively and inherently spiritual. They are so as children. Indeed, it is impossible for one, by the process of education to lead himself entirely away from that native spiritual sense. Even the supposedly wicked man may know God and be saved from his evil ways. This is not a mere high sounding theory, for it is a familiar saying that no one is wholly bad, for there must be at least a spark of goodness in him. Suppose, then, that you address yourself to some very wicked man and ask him if he has ever experienced the desire to be better and to do better; has he really desired to be good? Few will deny that there have been periods when they have entertained such desires. Where do these desires to be good come from? What is their origin? Do they originate with the indi-

vidual? No. They must have their origin in the infinity of good, and that to us means God—even as Jesus declared, "None is good save one, that is God." Infinite God is the source and activity of all right desires that inspire the individual consciousness such as honesty, tenderness, loving-kindness and so on. As one experiences those right desires, yields his obedience to them, and looks in their direction, he is looking toward God; but that is not so much a bodily movement as it is a state of consciousness; indeed, a state of spiritual consciousness.

If, on the other hand, the individual believes himself to be the originator of his goodness—that it is a mere personal possession humanly circumscribed—it could not be of God, and would not therefore be good, but evil. Some there are who really believe their goodness to be a personal possession, humanly circumscribed, and that is usually what is the matter with them; for they are invariably characterized by a tremendous degree of self-righteousness; and self-righteousness is the most tenacious evil known to the human consciousness. Such a sense of ownership or control over a divine quality gives rise to the belief that man can be separate from God—that he can lose his goodness and fall and suffer the direful consequences thereof; but the entire situation is the result of a mistaken or false belief.

Job's Revelation

This may be illustrated by the experiences of Job. According to the record, in the book of Job, the sons of God came to present themselves before God, and Satan came also. When asked where he came from Satan replied, "From going to and fro in the earth, and from walking up and down on it." Surely that is not so much a locality as a fluctuating wave of error. However, it is to be noted that Satan presumed upon the notion that Job's goodness was a form of selfishness—that it was a personal desire expressed merely for the hope of a reward in heaven,—and that if that hope of a reward were to be withdrawn, Job would curse God to His face. Satan declared, in other words, that Job's goodness was a mere personal sense with himself, a form of selfishness, a mixture of good and evil. But the question arises as to whether that was a correct charge. Permission was granted to make a trial of his charge, to prove whether he was good merely for the sake of a reward.

The first trial or temptation was the destruction of Job's property, but that had no disturbing effect on his goodness. Next his children were destroyed, but that did not change his divine purpose to be good. Finally the trial was made more personal. Job was afflicted with grievous diseases which tormented him so sorely that his wife broke down under the stress of it. Job, however, stood fast; he was good just the same. The trial had been made; the proof was conclusive that Job's goodness was not entertained for the sake of a reward. It was proved to be as unchanging as God himself—a divine attribute that is reflected through all alike.

With the recognition of one good who is God, it naturally follows that there can be but one goodness to express Him, which expression must characterize all alike. Indeed, it is so pure and simple as to be recognized and obeyed by a child. The activity of that right desire in the consciousness of Job enabled him to be true through the law to its divine source and declare that wonderful vision, "Yet in my flesh shall I see God." Those words are entirely in agreement with what Jesus himself later declared in the Sermon on the Mount, "Blessed are the pure in heart: for they shall see God." Job therefore acquainted himself with the divine nature, not so much by the human intellect, as by the understanding of his goodness in its simple purity, as an attribute of God. Not only did it enable him to see God, but it endowed him with the power of God to heal and save himself. The healing power of God was actually communicated to

his human consciousness through the law of goodness, scientifically understood. For example: The groping student of mathematics never goes directly to its basic meaning. He needs must go by way of its rules. The first task for the beginner to do is to assimilate the meaning of the simplest rule into his understanding, and he reaches its basic meaning by way of its several rules. So it is that no one goes directly to infinite good. He must go by way of goodness, the law of God. As Job assimilated the simple meaning of goodness into his consciousness, he could look through the law to its divine principle, and truthfully declare, "Yet in my flesh shall I see God." That acquaintance with the divine nature healed him, and showed forth the law as the communicator of God's healing power to the human consciousness.

One Honesty

Continuing this illustration, it may be said that honesty is not a personal possession, but a law or attribute of God, for there are not as many kinds of honesty as there are people. There is one honesty, which is a law or attribute of God reflected through all alike. Honor among thieves is far from being honor among honest men. Honor among thieves is but a subterfuge that has its basis in evil. Honor among honest men is honesty from principle. Indeed, it is commonly said that a truly honest man must be honest from principle. One who falls short of being honest from principle has no power to resist temptation. For example: Suppose such an one were placed as a cashier in a bank, and submitted to a severe pressure of temptation to dishonesty. He has no power to resist it. But the man who is honest from principle has the power of divinity to overcome the temptation. Indeed, he can go contrary to the power of the government. Therefore honesty from principle communicates the divine power to overcome dishonesty, even as goodness from principle communicates the divine power to overcome evil.

Health an Attribute of God

It is true that orthodox Christians generally accept this teaching as it relates to temptations of sin; but Christian Science accepts the same teaching as it relates to temptations of sickness. That is to say, we recognize that health is just as much a characteristic or attribute of God as are honesty, goodness, and there fore the individual makes the same mistake who believes that his health is a personal possession, as he does who believes that his goodness and honesty are personal possessions. We save our health through the recognition of its divinity,—that it is the gift of God,—and that God has no more purpose to withdraw it than He would honesty and goodness. God never died, nor is He ever sick. Indeed, it is unthinkable to conceive of a sick God. In fact, the characteristics or attributes of God must be and are life and health, as truly as they are goodness and honesty. Consequently one's health can no more be destroyed or impaired than can God himself. If we seem to lose our health, it is not lost, but merely hid; or, as explained in 2 Cor. 4:3, 4, "It is hid to them that are lost: in whom the god of this world hath blinded the minds of them which believe not."

Who then is "the god of this world" if not the same Satan that tempted Job? And what of this mental blindness? Had Satan succeeded in beguiling Job into the notion that his goodness was a form of selfishness, he would have implanted a lie, that he would have blinded Job to the fact of his goodness as an attribute of God. In that mental blindness he would have lost the healing power that was ever ready and waiting to be entertained through that divine acquaintance. The same Satan would tempt one to believe one's health is a mere personal possession or fleshly condition, rather than the gift or attribute of God; and we save our health as Job saved his goodness. The method is so naturally simple that the child and common people as readily grasp it as meaning and consequent healing today as when taught by the gentle Nazarene.

Mrs. Eddy's Discovery

The first case of healing that led to the discovery of Christian Science was that of Mrs. Eddy. She had met with an accident which those about her considered must result fatally. Unfettered by the weight of so great a fear, the effort of self-preservation turned her naturally from the contemplation of her extremity to seek comfort in her Bible. Always a devout student of the Bible, it was but natural that she should turn to its inspired pages for comfort, consolation, or hope of relief. But there, stripped of all material aid, she became imbued with a dawning ray of spiritual reality. She began to recognize that health is not a fleshly condition to be lost or impaired, but rather the gift of God, as imperishable as God himself. In that she recognized that health constitutes the immortality of man—that which every Christian admits and believes. But she saw in it as present a possibility as are goodness and honesty, and she was instantly healed. That was in the year 1866. She could then say with Paul, "the law of the spirit of life in Christ Jesus hath made me free from the law of sin and death."

It was indeed a wonderful experience, and coming so quickly, Mrs. Eddy experienced considerable difficulty in explaining it to those about her. Then she recognized that she never could explain it properly unless she more thoroughly understood its principle and rule of operation. In the effort to learn the explanation of her own healing, she resumed her search in the Bible and continued it for a period of years, until she re-discovered how Christian healing operates through spiritual law—the law which Jesus fulfilled. She began to write out her observations concerning the Christ-law. These writings formed the basis of the more complete record known as "Science and Health, with Key to the Scriptures," first published in the year 1875.

Mrs. Eddy Honored

It may be of interest to learn that the simple reading of Science and Health has healed disease and sin. This is the more notable since it is the only book since the writings of the primitive Christians to effect

cures of mind and body by the simple study and contemplation of its truths. The last chapter of this text-book called "Fruitage," contains a hundred pages of testimonials in evidence of the fact that the simple study of the book has healed such diseases as consumption, locomotor ataxia, cancers, tumors, curvature of the spine, and so on. In recognition of her distinguished services the French government has honored Mrs. Eddy by causing M. Briand, at that time minister of public instruction and fine arts, to decorate Mrs. Eddy officer of the French Academy. It is a most fitting way of recognizing in her a worthy interpreter of the Bible. This Christian Science text-book is not a Bible. Indeed, it can never displace the Bible. Its one purpose has been to interpret the spiritual meaning of the Bible. Every Christian sermon that has ever been preached has essayed to interpret the Bible. So the Christian Science text-book has no other purpose than to interpret the spiritual meaning of the Bible. It has so far succeeded as actually to restore to Biblical truths the healing and saving grace that originally characterized them.

Friendly Biographers

The true character and nature of an individual can be known only by his friends. We can learn best the real character of Jesus from the beloved disciple—the one who rested on His breast. He knew more of the inner meanings and characteristics of Jesus' life than any other person. The enemies of Jesus could not give any correct analysis of His work. It follows just as truly that one understands best those of his friends that he loves most. One's enemies never could do one justice in writing one's record, and it follows that only the friends of Mrs. Eddy—those who have known and loved her most—can really give a correct estimate of her. It has been my pleasure and privilege to know Mrs. Eddy personally for nearly 25 years. She has visited in my father's home. At one time she came to our home and remained nearly a week. Thereafter she moved into a house directly across the street from where we then lived; and there again she visited in our home, and I have visited her in her home, and I know from my personal acquaintance with her that she has lived a pure life, as unselfish and Christian a life as is possible for a denizen of this world; and in all that she has done she has considered herself but a humble disciple, seeking to learn more of the spiritual meaning of the Bible that she might impart it to the world, and to its great advantage.

Opposing Mentalities

Although it is generally admitted that Christian Science heals both sickness and sin by a mental process, fully 90 per cent of the popular misconception concerning it relates to the mental quality that heals. Some mis take it for the human will, others suggestion, and they are the polar opposites of Christian Science. We need therefore to recognize with Paul two types of mind, "for to be carnally minded is death; but to be spiritually minded is life and peace." How then shall one differentiate between the carnal and the spiritual? From the viewpoint of such divine laws as honesty and goodness: for the psalmist has said "Thy law is the truth." Moreover, "by their fruits ye shall know them." Some of the fruits of the carnal mind are the human will, suggestion, anger, malice, persecution, evil criticism and so on. These are continually at war with the laws of the spirit, which are goodness, honesty, health, joy, a pure affection and so on. The laws or attributes of God eternally link man to God; they communicate the power of God to the human consciousness, and make for life and peace.

Carnal Mind Discredited

As the attributes of God have been analyzed to indicate the operation of the spiritual mind, so we must analyze briefly some of the characteristics of the carnal mind, that we may thereby differentiate more accurately between them. Jealousy, for example, as a characteristic of the carnal mind, is always the result of ignorance of some sort, and should never be indulged. It never can know the truth about anything. Again, dishonesty always bears the mark of ignorance. A dishonest man cannot know whether another man is really honest. It is largely guesswork with him. Like most sinful men, he invariably suspects others of his own baseness, often unjustly. Only an honest man can really know whether another man is honest. To illustrate: Suppose you are in need of an employee. You advertise in the morning paper, and a half dozen men may respond. In looking them over, you may recognize one man in the group to be thoroughly honest. But how do you know? You may say that you can see it in his countenance. But what is it that enables you to discern the honesty expressed in a man's face? Can you describe it or tell what it looks like? Yet you are sure you can discern it; but how? Do you observe with your eyes? Even our physiologists teach that it is not the eye that sees, but rather the mind back of the eye. It is not the ear that hears, but rather the mind back of the ear. Is it not, therefore, the mind or intelligence expressed through honesty in yourself that enables you to recognize the corresponding quality expressed in another? The Scripture declares, concerning God, "In Thy light shall we see light." Honesty is spiritual light that lights up the countenance, whereby it may be intelligently recognized. It is positive intelligence. Dishonesty, on the other hand, is negative, non-intelligence. Thus we might continue in the analysis of the characteristics of the carnal mind and we could prove them all to be negative, non-intelligence. The carnal mind, however, assumes to be intelligent, even as Satan pretended to intelligence concerning Job's goodness; but it is destitute of intelligence. It also claims to be honest. Indeed, it pretends to be the same mind that Jesus employed to heal; but Jesus said of this carnal mind, it "is a liar, and the father of it." Since a lie is untrue, it must be in its ultimate analysis unreal. That is why it can never be understood. The psalmist asks the question, "Who can understand his errors?" Nobody can. That only can be understood which is true. No one can understand an error that may be introduced into a mathematical problem, and no intelligent person will try. Rather he will seek more thoroughly to understand the rule of truth that governs the problem, and to act in obedience thereto. Whereupon

Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher*. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## Christian Science Lecture

(Continued from Preceding Page)

the error disappears. But where? Into its native nothingness. That is why Jesus said, "Ye shall know the truth," not error, "and the truth shall make you free." Whatever is destitute of truth and of understanding is necessarily mindless—lacking in the very qualities that characterize mind or intelligence. Hence the so-called carnal mind is no mind at all.

An extraordinary claim of the carnal mind is to project itself through suggestion. Beginning mildly, these suggestions become more insistent only to the degree they are believed or indulged by the individual. Consequently he alone endows them with all the seeming power they ever had. Psychology has seized upon this mode of operation, so peculiar to the carnal mind, and developed its suggestions into various systems. Some of these systems have been called hypnotic suggestion, vibratory suggestion, auto-suggestion, therapeutic suggestion, psycho-suggestion, and even so-called christian psychology. They are all conceded to be the operation of the human will or vibratory suggestion—the product of the carnal mind whose basis is a lie. Anciently these systems of suggestion were employed by the magicians, astrologers and necromancers. It is a matter of record that those magicians and sorcerers were continually at war with Moses, Daniel and the early Christians, even as the representatives of these modern systems of suggestion are continually at war with Christian Science. And why? Because they are the product of the carnal mind; and the Scriptures declare that the carnal mind is "enmity against God." By reason of its peculiar operation, one may determine with accuracy the nature

of his thoughts, whether they are good or evil; for evil operates through suggestion and appeals to the nerves; the power of God is expressed through the divine attributes and appeals to the intelligence or reason. And "Know ye not that to whom ye yield yourselves servants to obey, his servants ye are to whom ye obey; whether of sin unto death, or of obedience unto righteousness?"

Jesus repudiated the use of human will, for He said, "I can of mine own self do nothing; . . . because I seek not mine own will, but the will of the Father." We might repeat these words and substitute honesty for an added meaning. "I can of mine own self do nothing; . . . because I seek not mine own sense of honesty, but the honesty of the Father, from principle." It is only that honesty from principle that has the spiritual power to overcome dishonesty. It is only that goodness from principle that has the spiritual power to overcome evil. It is only that mind or will of God—the divine principle—that has the spiritual power to overcome sickness and disease. Christ Jesus specifically declared that He used or employed only that will or mind which is God—the polar opposite of suggestion. Christians are, moreover, enjoined by the Scriptures to "let this mind be in you, which was also in Christ Jesus."

**One Mind**  
Job declared concerning God, "Thou art in one Mind," and Jesus recognized but one mind—the mind which is God. He referred to Him as "My God and your God." He is therefore my mind and your mind; He is my life and your life; my honesty and your honesty; my intelligence and your intelligence; for, as Paul says, "In Him we live, and move, and have our being." Endowed with that "mind which was also in Christ Jesus," we may fulfill the scriptural injunction "be not overcome of evil, but overcome evil with good." Some might say, however, "If good will overcome evil, so will evil overcome good." But that is not true, for the reason that good and evil are not alike. They bear precisely the same relation to one another as do intelligence and non-intelligence, as do the positive and negative, as do light and darkness. Intelligence will destroy non-intelligence, but non-intelligence can never destroy intelligence. So it is that light destroys darkness, but darkness cannot destroy light—cannot so much as put out a lighted candle—and it matters not whether a room has been maintained in darkness for five minutes or fifty years, the light will dispel the darkness with the same ease. In like manner it matters not whether an individual has been maintained in the darkness of despair and disease five minutes or fifty years, the light of spiritual intelligence will dispel it with the same ease. It will illuminate thought to conscious strength in the good to rule out evil.

**Sin not of God**  
Jesus employed the term sin in over one hundred places in the four Gospels, and in each case the corresponding word in the Greek manuscripts is hamartia. The first meaning imputed to this word hamartia is "to miss the mark," as in the throwing of a spear. The Greeks were much given to the enjoyment of athletic games, and if one were to hurl a spear and miss the mark, he committed hamartia—the same word which Jesus employed for sin. So it is with archery. When a man pulls his bow and shoots his arrow, if he fails to hit the mark, he has transgressed the laws of archery or committed hamartia. Even so sin is the transgression of the divine law, and it is so defined by our lexicons.

What is it that would make a man transgress the laws of archery? Is it not his ignorance or lack of practice? And what is sin but the result of ignorance or disobedience of the divine law? No educated person could transgress the simple law that two and two are four, for he not only understands it but practices it, and he will tell the child that his errors are not in the mathematical law nor of that law; that mathematical law knows nothing of mistakes but heals them, even as intelligence dispels ignorance. So it is that sin is not in the divine law nor of the divine law. God never visited a man with sin, but He never afflicted a man with it, for as the prophet Habakkuk has said, "Thou art of purer eyes than to behold evil, and canst not look on iniquity." Sin is the transgression of God's law, the result of ignorance, fear or wilfulness. When therefore Jesus came to fulfil the law and to teach the understanding of it, He was removing the possibility of sin; an incidentally the wages of sin.

**Disease Mental**  
Christian Science presents the understanding of the Christ law with such simplicity and accuracy that even the children and young people readily gain its spiritual meaning, which liberates them from suffering and sin of every sort. That is based on the recognition that disease in its cause is mental. Consumption, for example, is considered by many to be an incurable disease. It is generally conceded that no know drug or medicine can heal consumption, especially in its advanced stages. Therefore the usual method of today is to resort to what is known as the nature cure, outdoor life, exercise and pure air are resorted to in the hope of abating the white plague, as it is called. It is moreover generally conceded that consumption is largely a consuming fear and manifests no drug nor medicine can cure fear. Physicians readily admit the element of fear in nearly all disease, especially contagion. When a frightened child rushes to the arms of its mother, she instinctively employs the proper remedy. She does not rush for a medicine bottle. Rather does she soothe and comfort the child in his fear by her tender love and pure affection. The enduring affection that a mother entertains for her child, and that wipes out his childish fears, should point us to a greater love—even the God who is Love. The Bible declares that "fear hath torment" but "perfect love casteth out fear." There is no known remedy for fear save only the tenderness and compassion of unselfed love. It is that understanding of God as divine Love that enables the Christian Scientist to wipe out the fear of consumption and to remove its physical effects. On the same basis Christian Science heals cancers, tumors, pneumonia, locomotor ataxia, etc.—and heals them permanently.

**A Surgeon's Testimony**  
The question has been frequently asked, "How can some inanimate drug know just where to go and what to

do?" An eminent surgeon once said in my hearing that "no drug, medicine, or physician ever healed anything." That is a remarkable statement, and might appear meaningless if uttered by some. The gentleman is, nevertheless, a practicing surgeon, examining physician for a large life insurance concern, and also instructor in physiology and hygiene in a well-known American university. Moreover, the declaration was made before a legislative committee on public health at the Massachusetts state house. A physician on this committee promptly challenged the declaration; whereupon the surgeon invited citations, and the committee cited appendicitis and pneumonia. "Two very good cases," remarked the surgeon. "Now let us suppose the case of a man said to be suffering from appendicitis. He may be operated on, his appendix cut out, and after a time he may recover; but he isn't healed, because he no longer has an appendix and he ought to have one. So it is with pneumonia," he continued. "No drug, medicine or physician can heal it. We may assist the situation in helping to absorb the accumulation that appears, but we never can stop the accumulation nor heal the disease. If it is healed at all, it is nature that does the healing." And, strange as it may seem, the physician had nothing to say. He could not fail to recognize the great truth, that it is not the drug, but nature, that heals.

**What is Nature?**  
What then is nature? It cannot be a thing in and of itself. It must characterize or be the nature of something else. Jesus said, according to the revised version of the Bible, "God is Spirit," and the nature of Spirit must be spiritual. It is spiritual nature that heals. But we cannot afford to wait blindly on nature to heal. The silly nonsense of trying to imagine one's self to be well, while one is suffering, will not bring a recovery. We may but turn to the man who, in his great extremity, cried out to Jesus, "Lord, I believe, help Thou mine unbelief." There one may recognize the utter helplessness of blind faith; but Jesus and His disciples, with their understanding, had dominion over all. Therefore the Christian Scientist proceeds directly to lay hold of the actual understanding of the same spiritual nature that Jesus taught and demonstrated. Whereupon, clothed with spiritual understanding, he may apply it intelligently to the specific case, and the sick and the sinning are healed quickly and wholly.

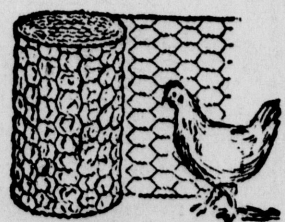

**Conclusion**  
Therefore, in leaving this subject I would commend to your further consideration that Christian Science textbook, "Science and Health with Key to the Scriptures," whose only purpose is to unlock the spiritual meaning of the Bible that we gain, not through the human intellect, but through the exercise of spiritual faculties, rising to the recognition of God as absolute good, as the author of only that which is good and real and positive and immortal. Imbued with spiritual understanding we may demonstrate today the same divine law in life, liberty and salvation. It gives us that spiritual dominion which God gave to man from the beginning—that dominion which has never been withdrawn. Christian Science presents this spiritual understanding in such a way that it may be applied from the very outset with the more simple problems. Such fruits of Christian Science, spread over a period of nearly half a century, have done more to change the thought of the world to higher ideals than any religious statement or teaching of modern times. They have challenged attention to the fact that spiritual teaching improves the health as well as the morals of men. Such divine characteristics as health and life, which proceed from God and are reflected through man, can no more be annulled, disintegrated, or destroyed than can God Himself; and we save ourselves by the conscious recognition of that fact.

## INDIGESTION, GAS OR SICK, SOUR STOMACH

Time "Pape's Diapiesin!" In Five Minutes All Stomach Misery is Gone

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapiesin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness. A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world—Advertisement.

## POULTRY WIRE

All widths and meshes.

A. H. WILLIAMS

297-309 West Fourth St.

## We Promise You Relief from All Stomach Troubles—Or Your Money Back

We honestly believe we have the best remedy in the world for indigestion and dyspepsia. We urge you to try it at our risk. If it doesn't relieve you—as we feel sure it will—we'll give back your money without a word. You know us—your family druggist. You know we wouldn't dare recommend anything we didn't know about, nor dare to break a promise. Therefore, when we recommend any remedy it is because we believe it to be better than any other to relieve the ailment for which it is made, and when we prove our faith in it and our sincerity toward you by promising to give back your money if it doesn't relieve you and in every way satisfy you, you have no possible excuse for doubt or hesitation.

## Rexall Dyspepsia Tablets

are, we honestly believe, the best remedy made for Indigestion, Dyspepsia and all other Stomach Ills

## We Know They're Good

Rexall Dyspepsia Tablets, in addition to other ingredients, contain Pepsin and Bismuth, two great digestive aids used by the entire medical profession. They soothe the inflamed stomach, check the heartburn and distress, stimulate a healthy secretion of the gastric juice, aid in rapid and comfortable digestion of the food and help to quickly convert it into rich red blood, and thereby into flesh, bone and muscle. They relieve stomach distress promptly, and, used regularly for a short time, tend to restore the stomach to a comfortable, easy-acting, healthy state. They aid greatly to promote regular bowel action.

## Delays Are Dangerous

Don't neglect indigestion, for it frequently leads to all sorts of ill and complications. The pain and discomfort is not the most unfortunate part. The fact that when the stomach is not acting right, the material needed to repair the wastes that are constantly taking place in the body is not being given to the blood either in the proper condition or fast enough is far more serious. Nothing will cause more trouble than an unhealthy stomach. The blues, debility, lack of strength and energy, constipation, biliousness, headaches and scores of other serious ailments result from the failure of the stomach to properly do its work.

## You Risk No Money

Our willingness to have you use Rexall Dyspepsia Tablets entirely at our risk proves our faith in them. We always sell them this way, and it is because we know that they have greatly benefited scores of sufferers to whom we have sold them. There's no red tape about our guarantee. It means just what it says. We'll ask you no questions. You needn't sign anything. Your word is enough for us. We know that when they help you you will consider it money well spent even if they had cost you ten times as much. If they don't help you, the money you paid for them is yours, and we want you to have it.

Sold only at the more than 7,000 Rexall Stores—the World's Greatest Drug Stores. In convenient boxes—three sizes: 25c, 50c, \$1.00

## DRUG Mateer's STORE

104 W. 4th St., Sana Ana, Cal.

Rexall Means 'KING OF ALL'—Ours is The Rexall Store in this town.

## HOTELS FOR HEALTH OR PLEASURE RESORTS

LOST—RHEUMATISM AND STOMACH TROUBLES. FOUND—HEALTH AND HAPPINESS AT MURRIETA HOT SPRINGS, MURRIETA, CAL. America's finest Sulphur and Mud Baths and Swimming Pool. Booklet at Information Bureau, or by writing, Fritz Guenther, Prop. H. Guenther, Manager.

Mrs. Housewife—"Here I've boiled and rubbed this lace and the coffee stains are in it yet. I'm simply afraid to do a thing more to it. It looks weak already. I guess it's a goner."

Anty Drudge—"Not if you will take my advice. Take that boiler off the range, fill it with cool water, rub the lace with Fels-Naptha Soap and soak it a short time. Then rub it lightly and rinse it. The stains will be all gone and the lace'll look as good as new."

"Boil until tender" is what all the cook books say.

Boiling makes most anything tender, even hard wood.

And that's precisely what boiling does to your clothes.

Fels - Naptha Soap dissolves and loosens dirt in cool or lukewarm water, without hard rubbing.

It's the easy way of washing; makes the clothes cleaner, whiter and purer, and they wear twice as long.

Be sure to get the genuine Fels-Naptha and follow directions on the red and green wrapper.

## Earnings Pacific Telephone Company

The Pacific Telephone and Telegraph Company reports for the ten months ended October 31, 1913: Telephone operating revenues, \$15,081,892; telephone operating expenses, \$4,413,830; net telephone operating revenues, \$10,668,062; taxes assignable to operations, \$609,990; operating income, \$3,692,839; net non-operating revenues, \$177,933; total gross income, \$3,870,772; rent deductions, \$182,808; interest deductions, \$1,808,525; dividend appropriations of income, \$1,440,000; surplus, \$439,438.

The general balance sheet as of October 31, 1913: Assets—Intangible capital, book value of 149,993 shares of Sunset Telephone and Telegraph Company and 169,933 shares of stock of the Pacific States Telephone and Telegraph Company subject to mortgage and pledged with trustee, \$14,100,000; plant—land and buildings, \$6,004,230; plant, \$72,902,754; office furniture and fixtures, tools and vehicles and supplies, \$2,621,608; cash and deposits, \$2,078,119; advances to system corporations for construction, \$127,162; bills and accounts receivable, \$3,055,104; prepaid expenses applicable to years 1913 and 1914, \$105,302; stocks of other companies, subject to mortgage, \$675,028; bonds of other companies, subject to mortgage, \$638,728; cash, \$329; charges on account of discount and cost of sale of bonds (company makes a pro rata monthly credit to this account so as to spread the charge over the entire life of the bonds), \$2,306,538; other expenses, \$16,433; total, \$104,632,341.

Liabilities—Preferred, \$32,000,000; common, \$18,000,000; bonded debt, \$41,590,000; bills and accounts payable: American Telephone and Telegraph Company, \$599,296; Western Electric Company, \$396,479; amounts due other creditors, employees, etc., \$790,303; accrued liabilities not due, \$790,653; sundry liabilities not due, \$790,653; sundry reserves, \$37,747; insurance and casualty reserves, \$50,000; liability for employees' benefit fund, \$507,855; reserve for accrued depreciation, \$9,408,730; corporate surplus unappropriated, \$461,275; total, \$104,632,341.

## Injunction in Irrigation Project

In the Common Pleas Court in Pittsburg, Pa., Thursday, a petition was filed by the Settlers Reclaiming and Operating Company praying that the California and Idaho Company, W. S. Kuhn, its president, and the board of directors be restrained from releasing a guarantee of the California and Idaho Company's bonds and returning collateral now held by the American Water Works and Guarantee Company on a mortgage for \$5,735,000. The court is also asked to restrain the reorganization of the American Water Works Company into a new company with capital stock of \$20,000,000, and also to restrain the defendant company from voting in favor of the cancellation of the defendants' contract with the water works company. Argument on the petition will be had next Thursday.

## To Finance Electric Road

With a capitalization of \$5,000,000, the Sloss Securities Company, which is formed for the purpose of refinancing the Northern Electric Railway in order than the debts of the traction company, amounting to several millions of dollars, may be paid when they fall due shortly, has filed its articles of incorporation in Butte County in the county clerk's office. The directorate of the concern is comprised of F. B. Anderson of San Rafael, J. S. Dunn of San Francisco, P. T. Morgan of Mountain View, H. Flieshacker of San Francisco, Leon Sloss of San Francisco, Joseph Sloss of San Francisco, E. S. Heller of San Francisco, and H. C. Hoover of London, England.

## New Oil Refining Companies

Articles of incorporation have been filed in Los Angeles by the Eureka Oil Refining Company. Incorporators are George M. Atkins, Charles O. De Long, Sanford A. Thompson, Arthur C. Brown, Henry J. Clark. Capital stock is \$10,000; subscribed, \$10,000.

The Alaska Refining Company, with a capital of \$250,000, has been incorporated in Arizona, the purpose being to do a general oil refining business. The incorporators are J. H. Mathes and P. Fitzmaurice of Chicago, and E. L. Harpham of Evanston, Ill.

## Japanese Option on Land

Twenty million dollars is involved in a land deal, which sum the Yokohama Specie Bank, one of the largest institutions in the Orient and with branches all over the world, is to furnish. The deal in question covers a large part of the California-Mexico Land and Cattle Company in the Imperial Valley. An option on the property has been closed. Of the lands, 200,000 acres are irrigable.

## Equalizing Electric Rates

Electric rates in Lamanda Park, San Rafael Heights, Altadena and Linda Vista, all suburbs of Pasadena, are to be equalized by the Southern California Edison Company, who asked the Railroad Commission for authority to make them, and this has been granted.

## Standard Oil Earnings

During the year ended December 31, 1913, the Standard Oil Company of Kentucky earned as net profits 162 per cent on its old capital and 51 per cent on its new, the net profits being \$1,002,000.

## Turkey Makes Heavy Loan

Regarding the proposed loan of \$140,000,000 to the Turkish government, which is to be placed in Paris, it is said that a syndicate of American financiers offered to advance the money. Their terms were considered excessive.

## Grand Trunk Stock

The Grand Trunk Railway is seeking permission to issue a new issue of 4 per cent perpetual consolidated debenture stock amounting to \$12,500,000. A bill with that object in view has been introduced in the House of Commons at Ottawa.

## To Fight Inheritance Tax

The Altman foundation, chief beneficiary of the will of the late Benjamin Altman of New York, who left an estate estimated at \$40,000,000 to \$50,000,000, will resist attempts to collect an inheritance transfer tax.

## May Sell Development Company

The Supreme Court of California, in an opinion filed Monday, set aside the execution of a writ of supersedeas, the result of which the California Development Company, now in the hands of a receiver, may be sold within sixty days. This unless the Southern Pacific Railroad files bonds sufficient to satisfy the court in the legal battle for control.

The petitions of the Southern Pacific, the Sociedad de Irrigacion y Terrenos de La Baja California, and one of S. J. Flores against the Superior Court of Los Angeles County, N. P. Conrey, judge of that court, and W. H. Holabird, court commissioner, which requested stay of execution of the judgment of the lower court in the action brought by the Title Insurance and Trust Company, directing Receiver Holabird to sell the property, were denied by the Supreme Court. The writ requesting the sale stands in favor of Intervenor Boaz Duncan, one of the creditors and bondholders of the company, and the only manner in which the sale can be stopped is the filing of a satisfactory guarantee bond by the Southern Pacific Company.

Representatives of two big English syndicates who have been in Southern California for several months past going over the properties, will now have the opportunity of bidding and the sum that they must put up to cover the bonded and other indebtedness of the corporation will exceed \$3,000,000.

## Pacific Mutual Earnings

The forty-sixth annual statement of the Pacific Mutual Life Insurance Company of California shows a surplus exclusive of capital of \$2,379,530. The assets total \$29,338,151. Total life business written in 1913 was \$24,088,667, making a grand total of \$145,040,193. Total cash income for the year was \$9,079,865. The increase in assets was \$3,995,146; increase in reserve, \$2,474,630, and increase in surplus, \$464,414.

These officers were elected by the meeting of the directors Tuesday: President, George I. Cochran; vice-president, Gail B. Johnson; second vice-president, Danford M. Baker; third vice-president, Lee A. Phillips; fourth vice-president, Rich J. Mier; general counsel, W. H. Davis; medical director, W. W. Beckett, M. D.; assistant medical director, V. A. Humphrey; treasurer, Gail B. Johnson; first assistant treasurer, Thomas B. Inch; second assistant treasurer, W. A. Jenkins; secretary, C. I. D. Moore; first assistant secretary, A. W. Morgan; second assistant secretary, Stanley F. McClung. Directors: George I. Cochran, Gail B. Johnson, Danford M. Baker, Lee A. Phillips, Rich J. Mier, W. H. Davis, Dr. W. W. Beckett, E. J. Marshall, John B. Miller, Dr. H. G. Grainer, Dr. John R. Haynes, J. C. Drake, Isaac Milbank, Dr. Milbank Johnson, Hon. Lucien Shaw, W. H. Crocker and Joseph H. Clark.

## Rates to Arizona Cut

In deciding the Arizona Corporation Commission and Pacific Creamery cases against the Southern Pacific and Santa Fe railroads, the Interstate Commerce Commission ordered sweeping reductions in the rates on fuel oil and refined petroleum from California and eastern producing points to Arizona. The decision holds present rates on fuel oil, refined petroleum and engine distillate from producing points in California, Kansas, Louisiana and Texas to all points in Arizona unjust and unreasonable. The commission rules that the defendants may either establish certain prescribed blanket rates or may divide Arizona into fifty-mile zones between parallel lines running north and south and adopt prescribed rates for each zone. The Pacific Creamery was damaged on account of unreasonable rates on fuel oil from California points to its creamery at Gilbert, Arizona, and reparation is allowed. The rate on fuel oil from California points is fixed at \$4.75 a ton. For refined petroleum the rate from California is made \$10 a ton.

In the case of the Arizona Corporation Commission versus the Arizona and New Mexico Railway, et al., involving wheat rates from Kansas and other Middle Western States to Arizona, the commission refused to grant a proposed increase in wheat rates and made reductions in flour rates.

## New Paper Currency

Designs for a new paper currency to be issued in compliance with the lately enacted currency law are being drafted at the Bureau of Printing and Engraving. The designs will be submitted to Secretary of the Treasury McAdoo for final approval and will be ready for distribution in 1915.

The designs contemplate the present size of paper money, although the plan of the former administration for smaller bills may be adopted in future use. The law authorizes notes of \$5, \$10, \$20, \$50 and \$100. Present designs would have the \$5 note bear the portrait of Lincoln; the \$10 that of Cleveland, the \$20 that of Jefferson and the \$50 that of Grant.

## Wheat Yield Is Given

The International Institute of Agriculture in Rome has given out the following statement of probable wheat production of the harvest of 1913-14 of the two principal producing countries of the southern hemisphere. Production of wheat, Australia, preliminary estimate, 113,344,000 bushels. Total production of wheat, preliminary estimate, Argentine and Australia, 244,533,000. Per cent production on all wheat in Argentine and Australia, compared with last year, 87.7 per cent.

## Change in Sugar Officials

Announcement is made by the Los Alamitos Sugar Company of the appointment of Henry C. Lee as manager of the company and of E. C. Hamilton as superintendent.

## Proposed Phone Merger

It is said that the Home Telephone Company of Long Beach is willing to merge with the Pacific Telephone and Telegraph Company. The mayor of the beach city is endeavoring to bring about an amalgamation.

## First Income Tax Payer

General Manager John C. Roth of the Great Northern Hotel, Chicago, was the first man in the country to pay the new income tax. It was paid Tuesday.

## SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and Neutralize Irritating Acids

Kidney and bladder weakness, result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble. Advertisement.

## NOTICE

For Sale—Forty acres land at southeast corner Fairview and Sullivan; water-stocked; will raise beets, sweet potatoes, peppers, melons or any thing you want to raise.

Also 1.157 acres at 1030 Parton street, in bearing walnuts and other fruits; modern six-room house with electricity, bath, toilet, gas, barn and fenced chicken-tight, also water-stocked and cement sidewalks. Effie T. Edwards, 826 North Birch street.

The King of All Laxatives. For constipation, use Dr. King's New Life Pills. Paul Mathukala, of Buffalo, N. Y., says they are the "king of all laxatives." They are a blessing to all my family and I always keep a box at home. Get a box and set well again. Price 25c. At druggists or by mail, H. E. Bucklen & Co., Philadelphia or St. Louis. Advertisement.

## LOS ANGELES PRODUCE MARKET

And the eggs came tumbling down. They dropped just one more cent yesterday morning, owing to the heavy arrivals of the past two days, and which for the coming week are apparently going to continue on the increase. The total receipts reported in the morning were 1296 cases. The call was very good, but not sufficient to maintain the 20-cent quotation. The eggs are being shipped in from as far off as Imperial valley, and from Petaluma on the north. The prices in San Francisco are ruling 2 cents higher than here.

Butter was in good call. Receipts were 24,500 pounds. Quotation stayed at 25 cents here and in all parts of the state. Eastern markets are higher than California. Cheese here was very firm and sales of northern fresh showed it jobbing at 18½ cents. The quotation in the producing section dropped to that and reports show that there is little, if any, storage stock left in the state. Locally there was very little put in for the winter supply. The demand is increasing on account of Lent.

## "Faultless" Houdans

This strain has been egg-bred from trapnest records since April, 1890. I have bred them 21 years for great layers and 12 years for large size chalk-white eggs; these fowls are extremely hardy, have neither comb nor wattle to freeze, and are the best of all winter layers in open front coops. Faultless strain Houdans have won every blue ribbon at New York, Boston, Chicago and Philadelphia shows for past six years; eggs and stock sold on honor; send 10c for the largest illustrated poultry catalogue ever issued; it tells you how to breed these fowls, which average 250 eggs a year apiece; it tells you how to net \$3,000 a year from 100 hens. E. F. MacAVOY, secretary Houdan Club, Cambridge, N. Y.

## GOING EAST THIS SPRING?

If so, you will be interested in learning something of the excellent service offered by the Salt Lake Route, the shortest line East through Salt Lake City.

If you want a quick trip the Pacific Limited or the Los Angeles Limited, both running through to Chicago via Omaha in less than three days, will just suit you. Both have through Standard and Tourist sleepers with all the latest improvements for your comfort.

The Pacific Limited also has a through Tourist car to Chicago via Denver and Burlington Route—a four day trip. The Overland Express has through sleepers to Denver, Kansas City, St. Paul and St. Louis.

No matter where you wish to go, if it can be reached through Salt Lake City there is no better way than over the

### Little Talks On Babyology

BY ANNA STEESE RICHARDSON  
Director of the Better Babies Bureau of the Woman's Home Companion

(Copyright, 1913, by the Woman's Home Companion.)

#### SLEEP

The healthy baby is a sleepy baby. When a baby does not want to sleep, when it is restless and wakeful, one of two conditions exist; either it has been spoiled and actually trained to be wakeful by a thoughtless mother, or it is in need of medical care.

A baby comes into the world sleepy. It sleeps twenty-two hours out of every twenty-four during the first few weeks of its life. The mother who interrupts his slumbers to cuddle him or show him off is endangering his health, and her future peace of mind.

Take a lesson from puppies and kittens. They sleep day and night. The wise mother-dogs and cats do not disturb them. The wise house-mother tells her children not to touch or disturb the new-born pets, and yet she will permit family and friends to break in upon the slumber of the new-born baby of the household.

Directly a baby has been ushered into the world, washed, dressed and fed, it goes to sleep. Unless roused for feeding, it is apt to sleep many hours. This is Nature's warning to mothers that new-born babies need just three things, warmth, food, sleep. And for the future good of the household, the greatest of these is sleep, and the habit of sleeping. When a new-born baby is permitted to sleep and trained to sleep, the family and household routine is not disturbed. The healthy baby starts life by sleeping three hours, and then waking to be fed. If the quality of the breast-milk or bottle milk fed him is sustaining and satisfying, the three hour interval is correct. If the milk is not quite heavy enough, he may wake at intervals of two and a half, but no baby should be fed oftener than once in two hours. If he does not sleep in stretches of two hours, there is something wrong with his general health or the quality of the milk he takes.

For two or three months, the baby varies this monotony of eating and sleeping only by an enforced daily bath and an occasional crying spell. Some babies drop right off to sleep after being fed; others cry a little. Moderate crying does not hurt a baby nor indicate a serious condition. It is about the only form of exercise he has, and, in moderation, is good for his lungs. But if his sleep is badly broken and his crying is shrill and prolonged, his digestion is probably at fault.

If the baby wakes up inside of two hours, and there is no evidence of ill-health or discomfort, the mother should let him wait, even if he cries until the two-hour limit is up. This period she can gradually increase to two hours and a half, and then to three hours. The healthy baby is easily trained.

Of course, a dimpled, rosy baby is a great temptation to the mother, especially while she is lying restfully in bed, with a nurse in attendance. It is so delightful to snuggle the baby against her, to cuddle his tiny fists, to smooth his soft cheek, his silky hair. But just the same, every time Baby's sleep is interrupted by these maternal pettings, Mother is laying foundations for future trouble. When she is up and about, with no nurse to relieve her, and household duties to perform, she will wish that she had trained baby to sleep to the limit of his desires and inclinations.

At the third month, the baby begins to take notice of what goes on around him and will lie awake a little longer between naps. If undisturbed, however, he will soon drop off asleep of his own sweet will.

At six months he sleeps from six o'clock to six, straight through the night, with just one feeding at 9 p. m. This 9 p. m. feeding should be given quietly and the baby immediately re-

turned to his bed or crib. He should also have two naps a day, from 9 to 11 in the morning, from 1 to 3 in the afternoon. If he sleeps too late in the afternoon, he will be wakeful at 6, the hour set for going to sleep for the night.

After his first birthday, Baby has only one daily nap, in early afternoon, but the twelve hour sleep at night is essential to his health until he has passed his sixth birthday. It is nonsense to say that a young child does not want to sleep. Nature cries out for sleep. Parents interfere with nature by starting the baby off wrong and teaching it not to want sleep. The best argument is that the baby who is kept up to romp with Papa in the evening, at the age of two, three or four years, is a late sleeper in the morning, irritable and heavy.

The baby should not be rocked to sleep, nor should he be tucked into a carriage and then trundled to sleep. In clear weather, he may be snuggled up in his carriage and set out of doors in a corner screened from draught or direct rays of the sun for both his morning and afternoon naps. At 6 o'clock, he should be undressed, made perfectly comfortable, fed and then laid down on a firm hair mattress without a pillow, to go to sleep without further attention. Do not form the habit of singing a baby to sleep or holding his tiny hands till he drops off. There will come evenings when you are too tired to sing, or there will be other work for your busy hands to do—and Baby, not understanding, will raise his voice in protest.

From birth, the baby should sleep alone, in a dark room well ventilated. Baby knows no fear and needs no light. Neither does he need the warmth of an adult body. There have been sad tragedies of babies smothered by tired mothers, too heavy with sleep to know they had rolled over on the tiny, helpless form. There have been other cases where babies permitted to sleep with adults, afflicted with chronic disease, have contracted the ailment and died.

Ventilation is important. Occasionally we read of unusual cases where parents boast that they have raised eight, nine or ten healthy children in unventilated bedrooms. These children have been constitutionally strong enough to survive such doses of vitiated air. The modern mother does not take the chance. She supplies fresh air to her baby from birth. The

little crib should not stand in a draught, but the window should be cropped from the top and raised from the bottom to create a current of fresh, pure air. The crib, with its little sleeper, may be protected by screens.

Above all things, do not start your baby's sleeping habits with the warning—"Hush!" Have the room in which he sleeps as free from noise as your household habits will permit, and do not permit other members of the family to disturb him unnecessarily, but when he is asleep on the second floor, do not demand that everybody tiptoe and speak in whispers on the ground floor. Remember a healthy baby is not a nervous invalid whose "nerves" must be saved in every possible way. Take it for granted that he was sent into the world with sound nerves and a normal appetite for sleep as well as food.

The baby's habits of sleep are regulated largely by his physical comfort, and this in turn is dependent upon the way in which he is clothed. So the next talk on Babyology will deal exclusively with clothes for the baby.

#### DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

#### RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

the family to disturb him unnecessarily, but when he is asleep on the second floor, do not demand that everybody tiptoe and speak in whispers on the ground floor. Remember a healthy baby is not a nervous invalid whose "nerves" must be saved in every possible way. Take it for granted that he was sent into the world with sound nerves and a normal appetite for sleep as well as food.

The baby's habits of sleep are regulated largely by his physical comfort, and this in turn is dependent upon the way in which he is clothed. So the next talk on Babyology will deal exclusively with clothes for the baby.

FULLERTON

### SAYS RIGRISH SOLD BARRELS OF BOOZE

City Officials of Fullerton Are to Receive Increased Salaries Soon

FULLERTON, Feb. 27.—D. W. Rigrish, wanted at Frankfort, Ind., on a charge of selling whisky without a license and also charged with jumping a \$1500 cash bond, was arrested by City Marshal French of this city at Balboa just as he was about to take the car to Los Angeles. When Rigrish was released from the county jail some days ago it was claimed that he had a serious attack of rheumatism, but the officers who arrested him last night say that he was as spry as he had been before in ten years.

The sheriff who came from Indiana left with the prisoner for the east.

The Indiana sheriff says Rigrish operated a number of drug stores in and about Frankfort and that he is charged with having sold 5500 quart bottles of beer and 6200 pint bottles of beer and also thousands of dollars' worth of whisky.

The sheriff says that three clerks who formerly worked for Rigrish are now serving terms in jail and that when they got into trouble Rigrish promised to stand by them, but that

he slipped away without doing so.

**Salary Changes.** A city ordinance has passed its first reading, which increases the salaries of city officers. Under it the city clerk will receive \$75 a month, city attorney \$75, city marshal \$75, city engineer \$6 per day, city recorder \$3 for each case tried. A proposition to pay the trustees \$10 a month will be submitted to the voters for their approval or rejection at the city election to be held April 13.

R. S. Gregory, a city trustee, has announced that he will be a candidate for re-election.

Col. J. E. Jones, recently from the east, has succeeded B. G. Balcom as president of the First National Bank. Mr. Jones having purchased Mr. Balcom's interest several weeks ago. E. E. Balcom will remain as cashier of the bank and B. G. Balcom will continue as a director.

The Standard Oil Company has entered into an agreement to supply the new town of El Segundo with gas, and will put down another pipe line from the Fullerton field to that city to be used for piping gas only.

The ministry of commerce of Japan has announced officially that Japan will participate in the Panama-Pacific International Exposition, at San Francisco in 1915. The amount for the Japanese representation, which has been recommended by the Japanese authorities is \$600,000.

### FRECKLES

February and March Bring Out Unpleasant Spots. How to Remove Easily

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind the recent discovery of a new prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.—Advertisement.
